KLASS 1 LASER APPARAT
PRODUCTO LASER CLASE 1

Note to CATV system installer :
This reminder is provided to call the CATV system installer's attention to Section 820~40 of the NEC which provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical

CAUTION
RISK OF ELECTRIC SHOCK.
DO NOT OPEN

CAUTION:
TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE REAR COVER. NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

CLASS 1 LASER PRODUCT

This Compact Disc player is classified as a CLASS 1 LASER product.

Use of controls, adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

CAUTION-INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCKS DEFEATED, AVOID EXPOSURE TO BEAM.

This symbol indicates that dangerous voltage which can cause electric shock is present inside this unit.

This symbol alerts you to important operating and maintenance instructions accompanying the unit.

**WARNING:** To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

Precautions
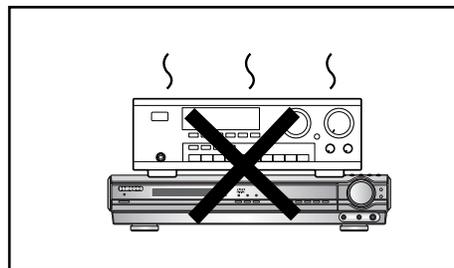

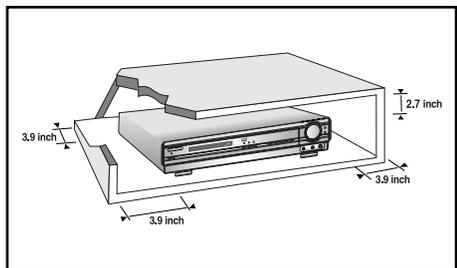

Ensure that the AC power supply in your house complies with the identification sticker located on the back of your player. Install your player horizontally, on a suitable base (furniture), with enough space around it for ventilation (3~4inches). Make sure the ventilation slots are not covered. Do not stack anything on top of the player. Do not place the player on amplifiers or other equipment which may become hot. Before moving the player, ensure the disc tray is empty. This player is designed for continuous use. Switching off the DVD player to the stand-by mode does not disconnect the electrical supply. In order to disconnect the player completely from the power supply, remove the main plug from the wall outlet, especially when left unused for a long period of time.
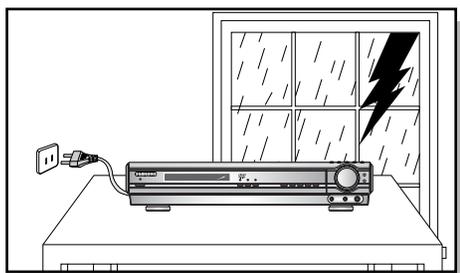

During thunderstorms, disconnect AC main plug from the wall outlet.
Voltage peaks due to lightning could damage the unit.
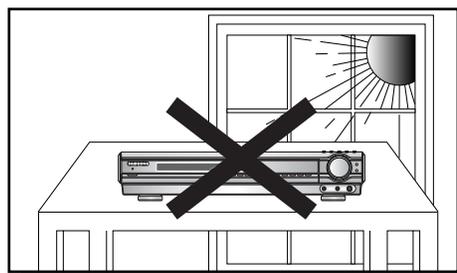

Do not expose the unit to direct sunlight or other heat sources.
This could lead to overheating and malfunction of the unit.
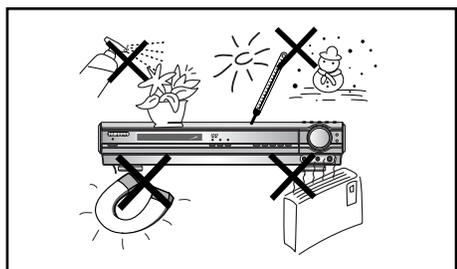

Protect the player from moisture(i.e. vases) , and excess heat(e.g.fireplace) or equipment creating strong magnetic or electric fields (i.e.speakers...). Disconnect the power cable from the AC supply if the player malfunctions. Your player is not intended for industrial use.
Use of this product is for personal use only.
Condensation may occur if your player or disc have been stored in cold temperatures.
If transporting the player during the winter, wait approximately 2 hours until the unit has reached room temperature before using.
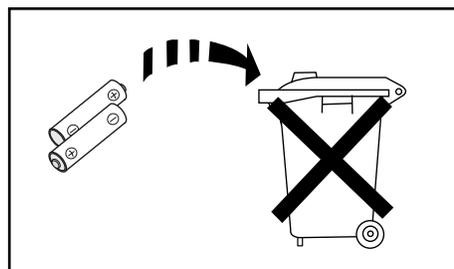

The battery used with this product contain chemicals that are harmful to the environment.
Do not dispose of batteries in the general household trash.

Features

Multi-Disc Playback & AM/FM Tuner

The HT-DS660 combines the convenience of multi-disc playback capability, including DVD-AUDIO, DVD-VIDEO, VCD, CD, MP3-CD, CD-R/RW, and DVD-R/RW, with a sophisticated AM/FM tuner, all in a single player.

DVD-Audio compatible

Experience the super high-quality audio performance of DVD-Audio.
The on-board 24-bit/192kHz DAC enables this player to deliver exceptional sound quality in terms of dynamic range, low-level resolution and high-frequency detail.

Super Digital Sound Master

Equipped with a new digital audio technology (Auto Sound Calibration, Magic Sound Field, and Magic Headphone) developed in cooperation with DiMagic Co., Ltd. in Japan, you'll enjoy a more lively and sensitive sound.

RRSS (Rear Reflecting Surround System)

The sound from the rear speaker is reflected against the side and rear walls before reaching the listener to produce realistic sound as if you have installed an actual 5.1-channel speaker system.

Sound Logo

When power is turned on, a sound logo is output from the speakers to notify the user that the unit is optimized for disc playback.

TV Screen Saver Function

The HT-DS660 automatically brightens and darkens the brightness of the TV screen after 3 minutes in the stop mode.
The HT-DS660 automatically switches itself into the power saving mode after 20 minutes in the screen saver mode.

Power Saving Function

The HT-DS660 automatically shuts itself off after 20 minutes in the stop mode.

Customized TV Screen Display

The HT-DS660 allows you to select your favorite image during JPEG, DVD playback and set it as your background wallpaper.

P.SCAN(Progressive Scan) Function

Unlike regular Interlace Scan, in which two fields of picture information alternate to create the entire picture (odd scan lines, then even scan lines), Progressive Scan uses one field of information (all lines displayed in one pass) to create a clear and detailed picture without visible scan lines.

Samsung AV Device Operation using Anynet

You can conveniently operate Samsung DVD and other Samsung AV devices with one remote controller of Samsung TV, using Anynet.

Notes on Discs

DVD (Digital Versatile Disc) offers fantastic audio and video, thanks to Dolby Digital surround sound and MPEG-2 video compression technology. Now you can enjoy these realistic effects in the home, as if you were in a movie theater or concert hall.

DVD players and the discs are coded by region. These regional codes must match in order for the disc to play. If the codes do not match, the disc will not play.
The Region Number for this player is given on the rear panel of the player.
(Your DVD player will only play DVDs that are labeled with identical region codes.)

Playable Discs

Disc Type	Mark (Logo)	Recorded Signals	Disc Size	Max. Playing Time
DVD-AUDIO DVD-VIDEO	**DVD** AUDIO/VIDEO	Audio + Video	5"	Approx. 240 min. (single-sided)
				Approx. 480 min. (double-sided)
			3 1/2"	Approx. 80 min. (single-sided)
				Approx. 160 min. (double-sided)
VIDEO-CD	COMPACT disc DIGITAL VIDEO	Audio + Video	5"	74 min.
			3 1/2"	20 min.
AUDIO-CD	COMPACT disc DIGITAL AUDIO	Audio	5"	74 min.
			3 1/2"	20 min.

Do not use the following types of disc!

- LD, CD-G, CD-I, CD-ROM and DVD-ROM cannot be played on this player.
  If such discs are played, a "**WRONG DISC FORMAT**" message appears on the TV screen.
- DVD discs purchased abroad may not play on this player.
  If such discs are played, a "**WRONG REGION CODE**" message appears on the TV screen.

Copy Protection

- **Many DVD discs are encoded with copy protection. Because of this, you should only connect your DVD player directly to your TV, not to a VCR. Connecting to a VCR results in a distorted picture from copy-protected DVD discs.**
- This product incorporates copyright protection technology that is protected by methods claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

Disc Recording Format

CD-R Discs

● Depending on the disc recording device (CD-Recorder or PC) and the condition of the disc, some CD-R discs may not be playable.

● Use a 650MB/74 minute CD-R. Avoid CD-R media, as they may not be playable.

● If possible, do not use CD-RW (Rewritable) media, as they may not be playable.

● Only CD-Rs that are properly "closed" can be fully played. If the session is closed but the disc is left open, you may not be able to fully play the disc.

CD-R MP3 Discs

● Only CD-R discs with MP3 files in ISO 9660 or Joliet format can be played.

● MP3 file names should be 8 characters or less in length and contain no blank spaces or special characters (. / = +).

● Use discs recorded with a compression/decompression data rate greater than 128Kbps.

● Only files with the ".mp3" and ".MP3" extensions can be played.

● Only a consecutively written Multi session disc can be played. If there is a blank segment in the Multi session disc, the disc can be played only up to the blank segment.

● If the disc is not closed, it will take longer to begin playback and not all of the recorded files may be played.

● For files encoded in Variable Bit Rate (VBR) format, i.e. files encoded in both low bit rate and high bit rate (e.g., 32Kbps ~ 320Kbps), the sound may skip during playback.

● If more than 500 tracks are recorded on a single CD, a maximum of 500 tracks can be played.

● If more than 300 folders are recorded on a single CD, a maximum of 300 folders can be played.

CD-R JPEG Discs

● Only files with the ".jpeg" and ".JPEG" extensions can be played.

● If the disc is not closed, it will take longer to start playing and not all of the recorded files may be played.

● Only CD-R discs with JPEG files in ISO 9660 or Joliet format can be played.

● JPEG file names should be 8 characters or less in length and contain no blank spaces or special characters (. / = +).

● Only a consecutively written multi session disc can be played. If there is a blank segment in the multi session disc, the disc can be played only up to the blank segment.

● A maximum of 9,999 images can be stored on a single CD.

● When playing a Kodak/Fuji Picture CD, only the JPEG files in the picture folder can be played.

● Picture discs other than Kodak/Fuji Picture CDs may take longer to start playing or may not play at all.

Insert Remote Batteries

1 Remove the battery cover on the back of the remote by pressing down and sliding the cover in the direction of the arrow.
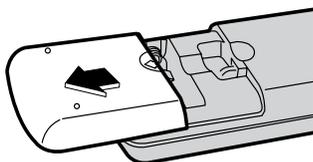

2 Insert two 1.5V AAA batteries, paying attention to the correct polarities (+ and –).
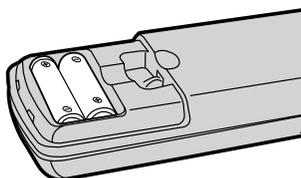

3 Replace the battery cover.
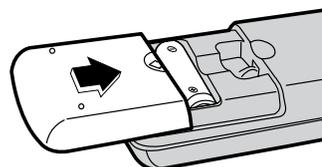

Caution **Follow these precautions to avoid leaking or cracking batteries:**
- Place batteries in the remote control so they match the polarity:(+) to (+)and (–)to (–).
- Use the correct type of batteries.Batteries that look similar may differ in voltage.
- Always replace both batteries at the same time.
- Do not expose batteries to heat or flame.

Range of Operation of the Remote Control

The remote control can be used up to approximately 23 feet/7 meters in a straight line. It can also be operated at a horizontal angle of up to 30° from the remote control sensor.

30° 30°
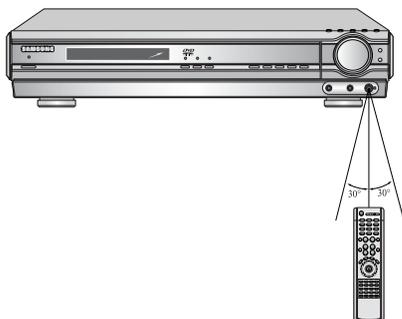

To open the remote control cover, push the top of the cover, then slide downward.

10

Connecting the Speakers

Before moving or installing the product, be sure to turn off the power and disconnect the power cord.
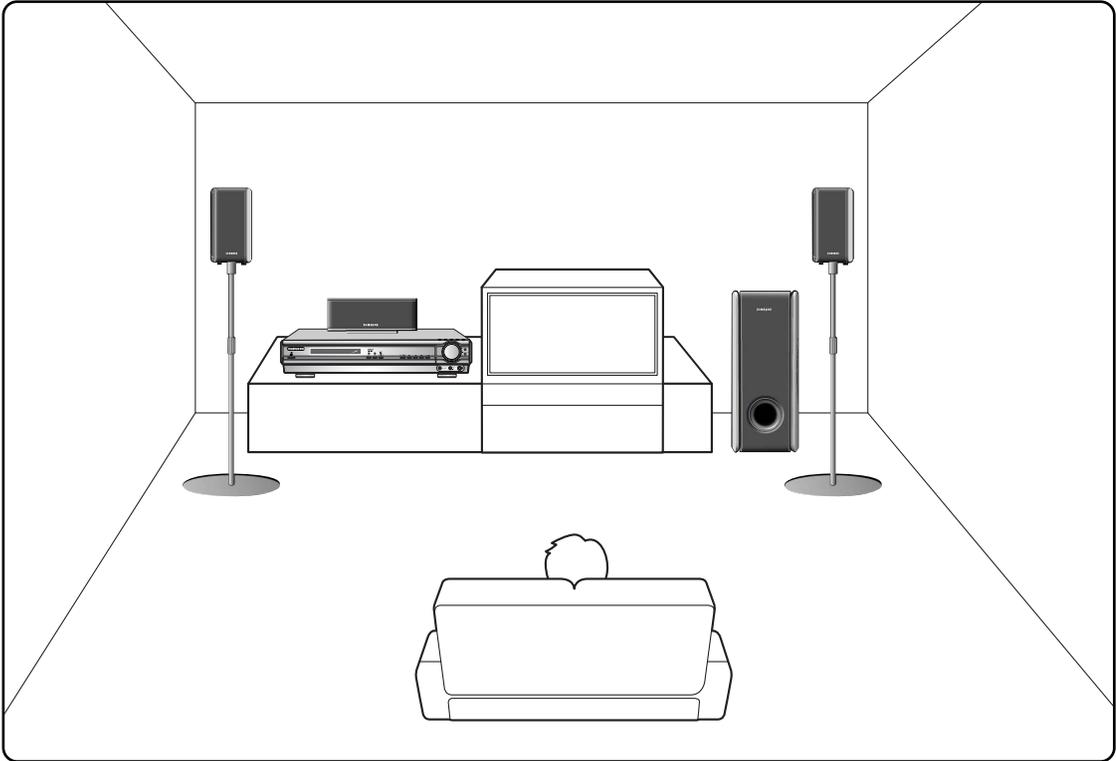

Position of the DVD Player

- Place it on a stand or cabinet shelf, or under the TV stand.

Front/Rear Speakers **L R** / **LS RS**

- Place these speakers in front of your listening position, facing inwards (about 45°) toward you.
- Place the speakers so that their tweeters will be at the same height as your ear.
- Align the front face of the front speakers with the front face of the center speaker or place them slightly in front of the center speakers.

Selecting the Listening Position

The listening position should be located about 2.5 to 3 times the distance of the TV's screen size away from the TV. Example: For 32" TVs 2~2.4m (6~8 feet)
For 55" TVs 3.5~4m (11~13 feet)

Center Speaker **C**

- It is best to install it at the same height as the front speakers.
- You can also install it directly over or under the TV.

Subwoofer **SW**

- The position of the subwoofer is not so critical. Place it anywhere you like.
- Usually, it is placed by a corner near the front speakers.

Connect the front/rear, center, and subwoofer speakers to the speaker terminals on the back of the main unit.

Back of the Main Unit

12
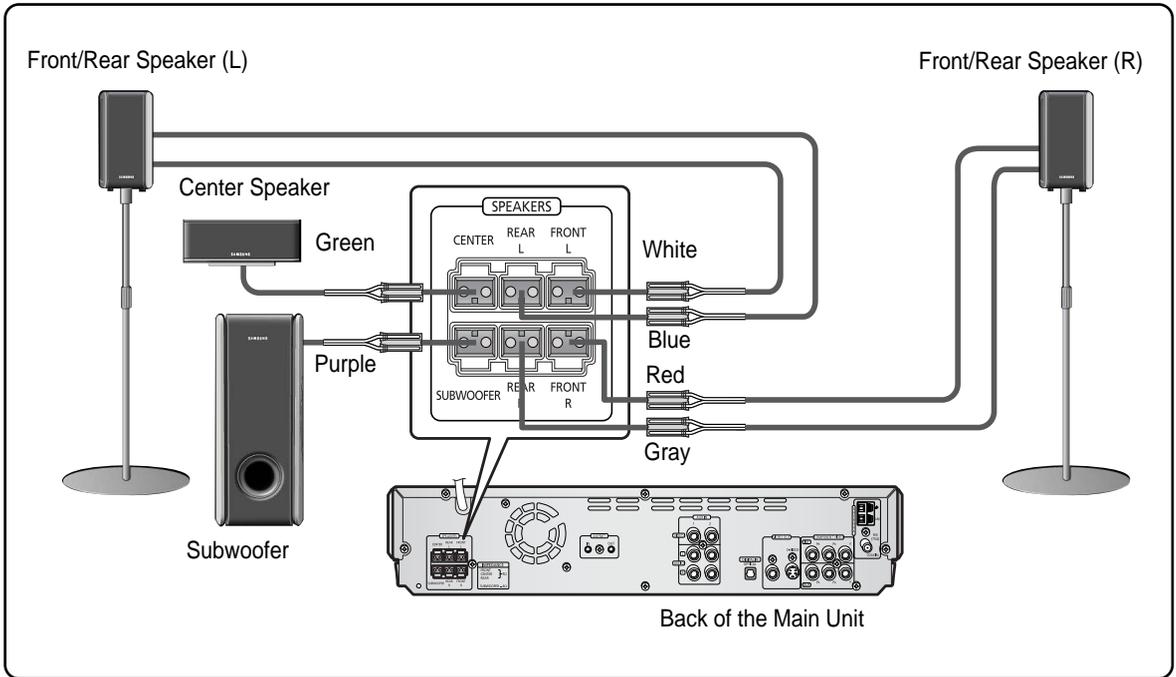

Connecting the Speakers

Back of the Speaker

1 Press down the terminal tab on the back of the speaker.

$(-)$ $(+)$

2 Insert the black wire into the back terminal (–) and the gray wire into the gray (+) terminal, and then release the tab.

Black — Gray

$(-)$ $(+)$
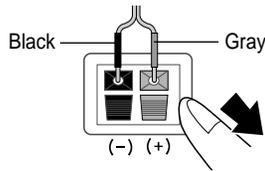

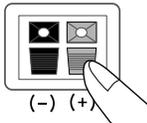

Caution

- Do not let children play with the speakers. They could get hurt if a speaker falls.
- When connecting the speaker wires to the speakers, make sure that the polarity (+/) is correct.
- Never touch the speaker terminal while the power is on. Doing so may result in a risk of electric shock.

Back of the Main Unit

3 Connect the wires to the output plugs of the same color on the back of the main unit, making sure that the polarity (+/–) is correct.

Example: Connect the center speaker's green wire to the center speaker output plug (green) on the back of the main unit.
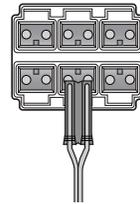

Note

- If you place a speaker near your TV set, screen color may be distorted because of the magnetic field generated by the speaker. In this case, place the speaker away from your TV set.

Connecting the Video Out to TV
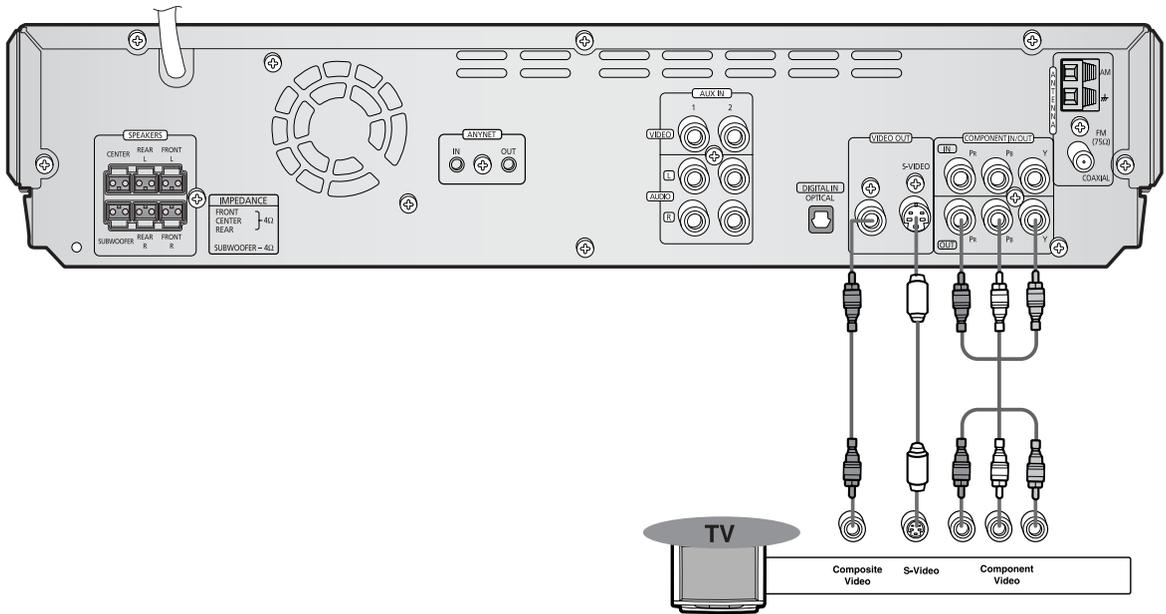

* Depending on your TV, Component Video input jacks may be marked as DVD Video input.

Composite Video (Good Quality)
Connect the supplied video cable from the VIDEO OUT jack on the back panel of the system to the VIDEO IN jack on your television.

S-Video (Better Quality)
If you television is equipped with an S-Video input, connect an S-Video cable (not supplied) from the S-VIDEO OUT jack on the back panel of the system to the S-VIDEO IN jack on your television.

Component Video (Best Quality)
If your television is equipped with Component Video inputs, connect a component video cable (not supplied) from the Pr, Pb and Y jacks on the back panel of the system to the corresponding jacks on your television.

Note
• When the Progressive scan mode is selected, the VIDEO and S-VIDEO outputs do not feed any signal. See page 15 to select Progressive Scan.

P.SCAN (Progressive Scan) Function

Unlike regular Interlace Scan, in which two fields of picture information alternate to create the entire picture (odd scan lines, then even scan lines), Progressive Scan uses one field of information (all lines displayed in one pass) to create a clear and detailed picture without visible scan lines.

1 Press STOP button.

• When disc is played back, press the **STOP** button twice so that "**STOP**", appears on the display.

2 Press and hold P.SCAN button on the remote control for over 5 seconds.

• Pressing and holding the button for over 5 seconds will select "**Progressive Scan**" and "**Interlace Scan**" repetitively.
• When you select P.SCAN, "**P.SCAN**" will appear on the display

What is Progressive (or Non-Interlaced) Scanning?

Interlaced Scan (1 FRAME = 2 FIELDS)	Progressive Scan (FULL FRAME)
In interlaced-scan video, a frame consists of two interlaced fields (odd and even), where each field contains every other horizontal line in the frame. The odd field of alternating lines is displayed first, and then the even field is displayed to fill in the alternating gaps left by the odd field to form a single frame. One frame, displayed every 1/30th of a second, contains two interfaced fields, thus a total of 60 fields are displayed every 1/60th of a second. The interlaced scanning method is intended for capturing a still object.	The progressive scanning method scans one full frame of video consecutively down the screen, line by line. An entire image is drawn at one time, as opposed to the interlaced scanning process by which a video image is drawn in a series of passes. The progressive scanning method is desirable for dealing with moving objects.
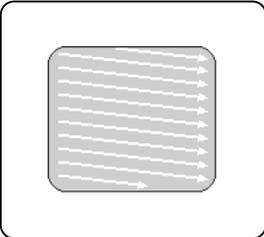

Note
• This function works only on TVs equipped with component video inputs (Y, Pr, Pb) that support Progressive Video. (It does not work on TVs with conventional component inputs, i.e., non-progressive scan TVs.)
• Depending on the brand and model of your TV, this function may not work.

Selecting the Video Format

Press and hold **NTSC/PAL** button on the remote controller for over 5 seconds while the power is turned off.

• "**NTSC**" or "**PAL**" will appear in the display.
  At this time, press the **NTSC/PAL** button shortly to select between "**NTSC**" and "**PAL**".
• Each country has a different video format standard.
• For normal playback, the video format of the disc must be the same as the video format of your TV.

How to Connect to Anynet

Using the Anynet function, the DVD Home Theater System can be conveniently controlled from your Samsung TV. By connecting the Anynet output terminal on the DVD Home Theater System to the input terminal of any Samsung Anynet-enabled device, both can be controlled from your TV. For detailed operation instructions and connection diagram, refer to the user's manual of your Anynet-enabled TV.

What is Anynet?

- The Anynet function allows you to use your TV's remote control and menu to control all AV devices.
- **However, this function is available only with Samsung Anynet-enabled models.**
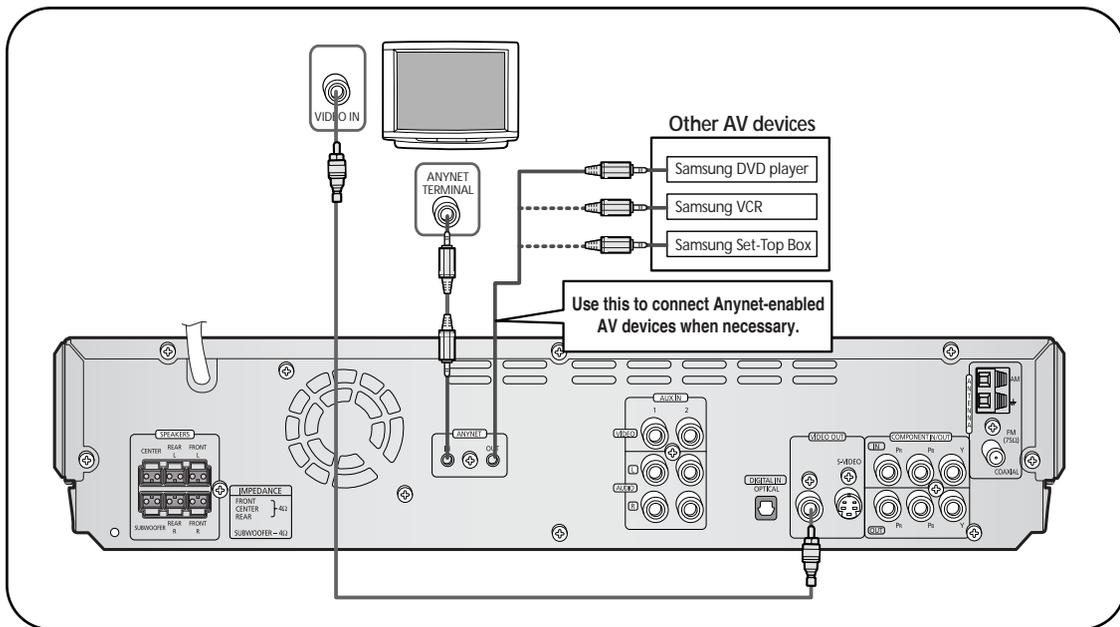

1 Connect the Anynet input terminal on the back of this unit to your Samsung TV's Anynet output terminal.

2 Connect the Anynet Out Terminal on the back of this unit to the Anynet input of Samsung external AV devices.

3 Refer to the user's manual of your Anynet-enabled TV and activate the Anynet function.

  * This function is available only with Anynet-enabled TVs.

Caution • If the Anynet input and output terminals are reversed, communication with the TV will fail and you will not be able to use the Anynet function.

16

Connecting External Components

Connecting an External Digital Component

Example: Digital signal components such as a Settop Box or CD Recorder.

Optical Cable (not included)
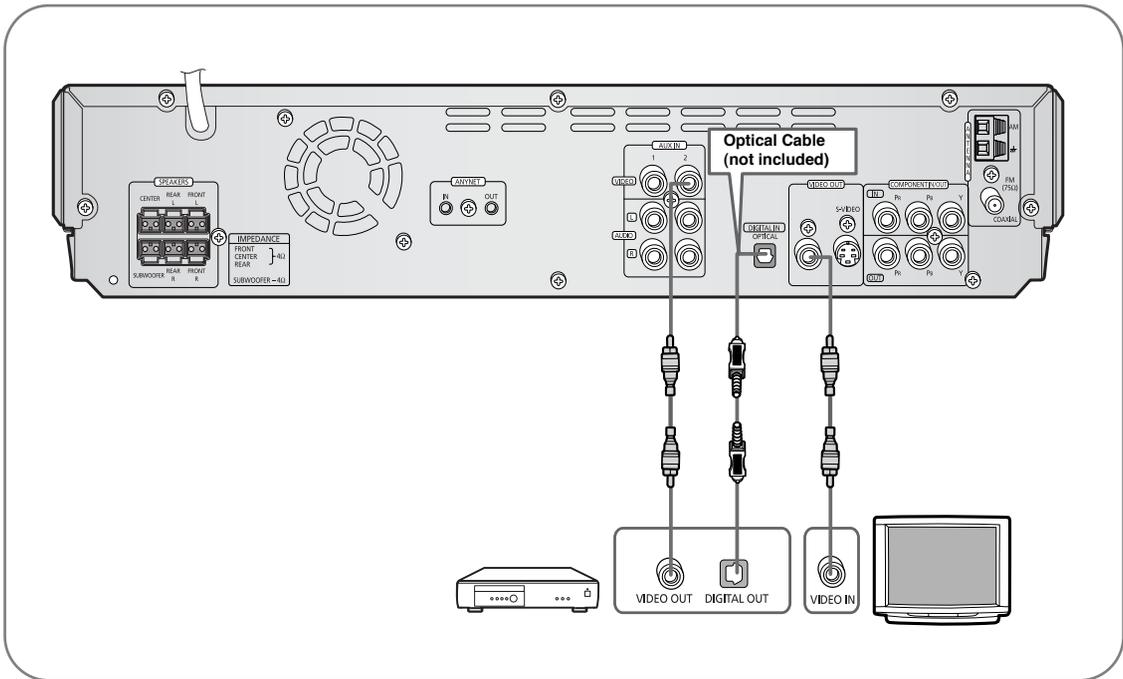

1 Connect Video Out on the DVD player to Video In on the TV.

2 Connect the Digital Input (OPTICAL) to the Digital Output on the external digital component.

3 Press **AUX** on the remote control to select 'DIGITAL IN'.
- Each time the button is pressed, the selection changes as follows: **DIGITAL IN → AUX 1 → AUX 2**.
- You can also use the **FUNCTION** button on the main unit.
  The mode switches as follows: **DVD/CD → DIGITAL IN → AUX1 → AUX2 → FM → AM**.

17

Connecting an External Analog Component

Example: Analog signal components such as a VCR or TV.

Video Cable

Audio Cable
If the external analog component has only one Audio Out, connect either left or right.

VIDEO OUT

L   R
AUDIO OUT
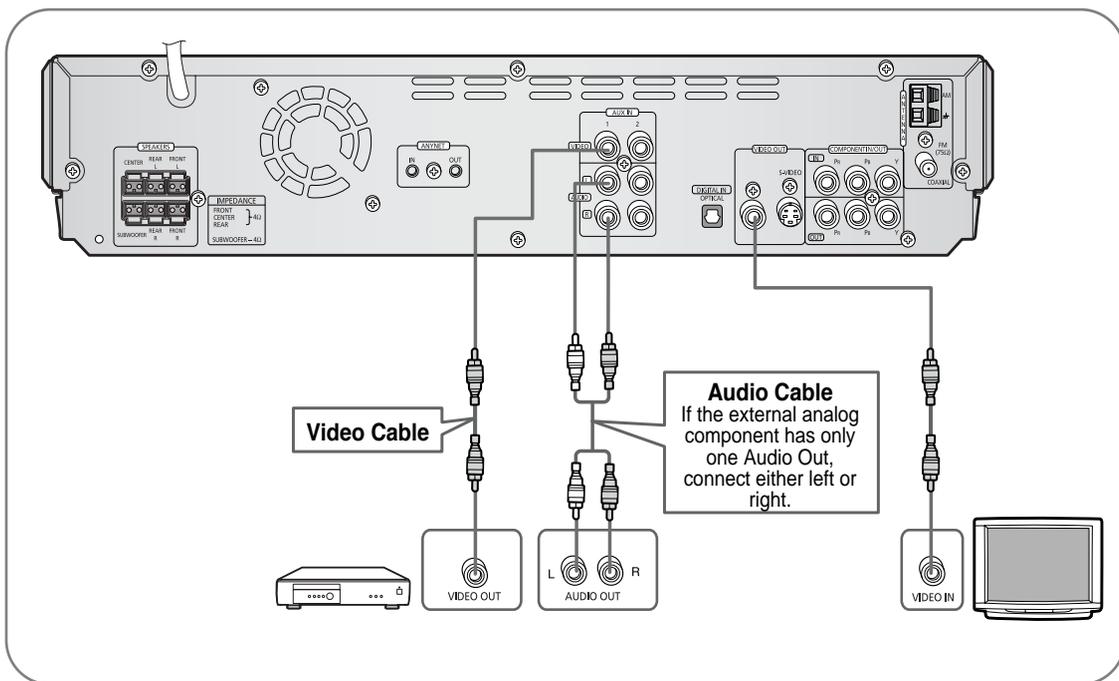

VIDEO IN

1 Connect Video Out on the DVD player to Video In on the TV.

2 Connect Video In on the DVD player to Video Out on the external analog component.

3 Connect Audio In on the DVD player to Audio Out on the external analog component.
  - Be sure to match connector colors.

4 Press **AUX** on the remote control to select AUX 1 or AUX 2.
  - Each time the button is pressed, the selection changes as follows: **DIGITAL IN→ AUX 1 → AUX 2**.
  - You can also use the **FUNCTION** button on the main unit. The mode switches as follows: **DVD/CD → DIGITAL IN → AUX1 → AUX2 → FM → AM**.

Note

  - If you have connected an external digital component and also an Analog component to Video In (1, 2) at the same time, there will be video from AUX 1 even when you select DIGITAL IN.
  - If you have connected Audio In (L, R) to 1, connect Video In to 1 as well, and if you have connected Audio In (L, R) to 2, connect Video In to 2 also.
  - When you select Aux 1 or 2, you are selecting Video 1 or 2 inputs respectively.

18

Connecting the Antennas

FM antenna connection

FM Antenna (supplied)
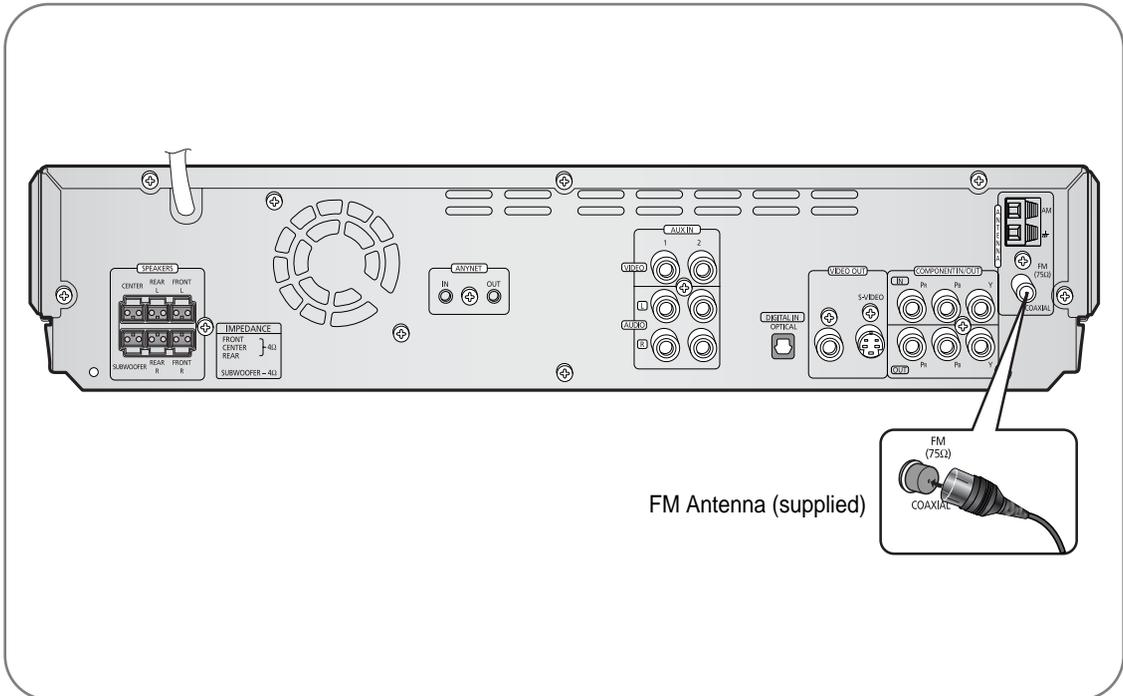

1 Connect the FM antenna supplied to the FM 75Ω COAXIAL terminal as a temporary measure.

2 Slowly move the antenna wire around until you find a location where reception is good, then fasten it to a wall or other rigid surface.

AM antenna connection

If AM reception is poor, connect an outdoor AM antenna(not supplied).

1   2   3

AM Loop Antenna (supplied)

Snap the tabs on the loop into the slots of the base to assemble the AM loop antenna.

AM
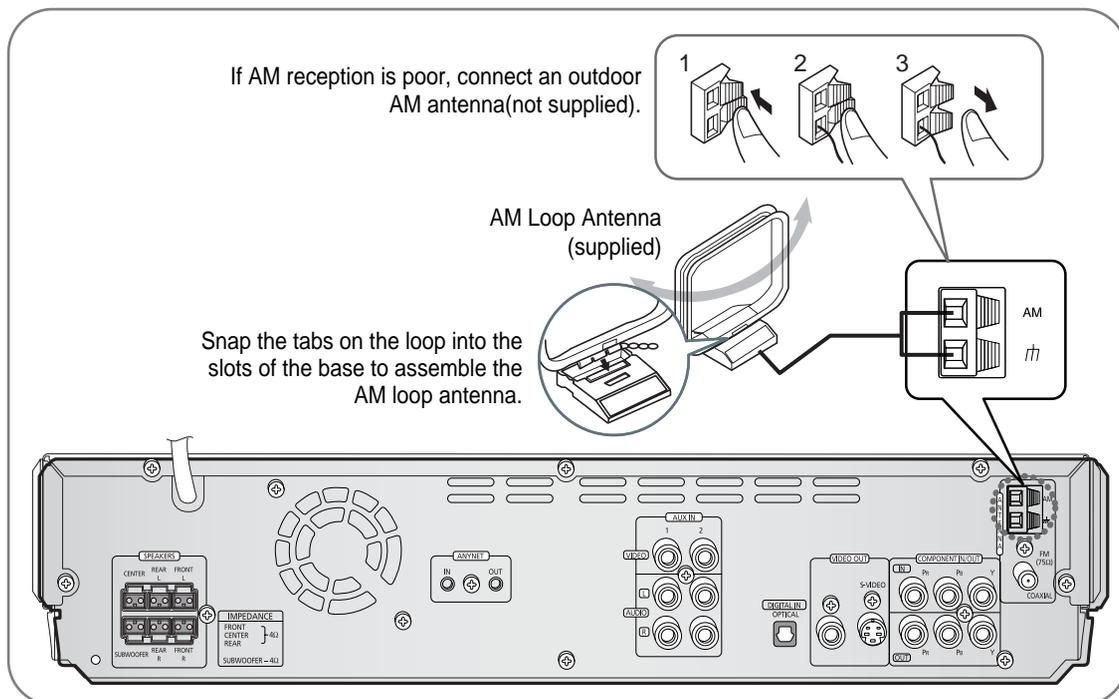

1 Connect the AM loop antenna supplied to the AM and ⊓ terminals.

2 If reception is poor, connect an outdoor single vinyl-covered wire to the AM terminal. (Keep the AM loop antenna connected).

Cooling Fan

The cooling fan dissipates the heat generated inside the unit so that the unit can be operated normally. The cooling fan is activated automatically to supply cool air to the unit.
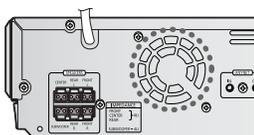

Please observe the following cautions for your safety.

• Make sure the unit is well-ventilated. If the unit has poor ventilation, the temperature inside the unit could rise and may damage it.
• Do not obstruct the cooling fan or ventilation holes. (If the cooling fan or ventilation holes are covered with a newspaper or cloth, heat may build up inside the unit and fire may result.)

20

Before Using Your DVD Player

Your DVD player is capable of playing DVD, CD, MP3 and JPEG discs.Depending on the disc you are using, these instructions may vary slightly. Read the instructions carefully before using.

1 Plug the power cord into the AC power supply.

2 Press the **MODE** button so that the TV indicator on the remote control flashes.

TV   DVD RECEIVER

3 Press the **POWER** button to turn on the TV.

4 Press **TV/VIDEO** button to select VIDEO mode.

5 Press the **MODE** button so that the DVD RECEIVER indicator on the remote control flashes.

TV   DVD RECEIVER

6 Press **FUNCTION** button on the main unit to select DVD/CD mode.

To Operate the TV and DVD Player with a Single Remote Control

Press **MODE** button.

- Each time the button is pressed, the TV indicator (red) and the DVD Receiver indicator (green) will flash alternately.
- You can operate the TV while the TV indicator is flashing and the DVD player while the DVD indicator is flashing.
- Buttons Enabled for TV Operation: POWER, CHANNEL, VOLUME, TV/VIDEO, and Numeric (0-9) buttons.
- By default, the remote control is set to work with Samsung TVs. See page 73 for more information on the operation of the remote control.

21
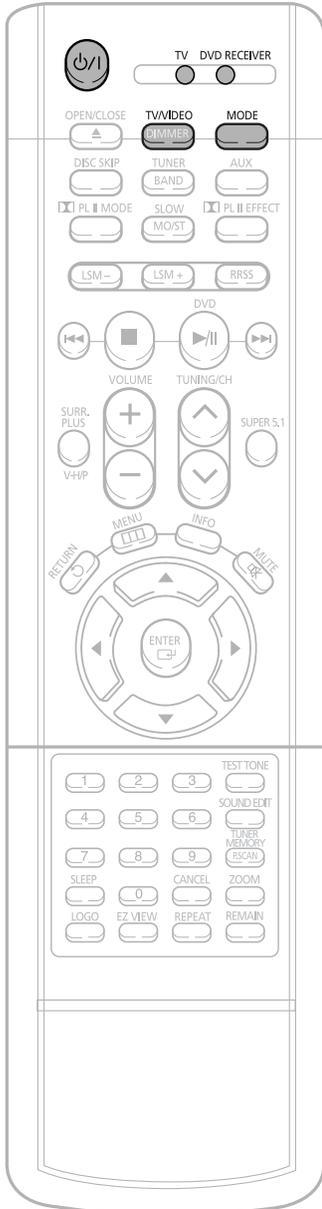

Disc terminology

Groups and tracks (DVD-AUDIO)

● DVD-audio is divided into several large sections called "groups" and smaller sections called "tracks". Numbers are allotted to these sections. These numbers are called "group numbers" and "track numbers".

GROUP 1			GROUP 2	
TRACK 1	TRACK 2	TRACK 3	TRACK 1	TRACK 2
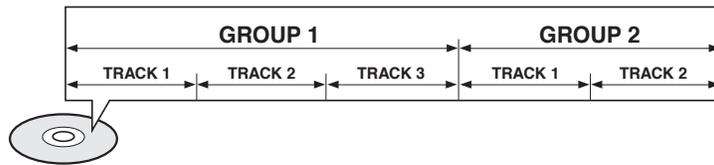

Titles and chapters (DVD-VIDEO)

● DVD-video is divided into several large sections called "titles" and smaller sections called "chapters". Numbers are allotted to these sections. These numbers are called "title numbers" and "chapter numbers".

TITLE 1			TITLE 2	
CHAPTER 1	CHAPTER 2	CHAPTER 3	CHAPTER 1	CHAPTER 2
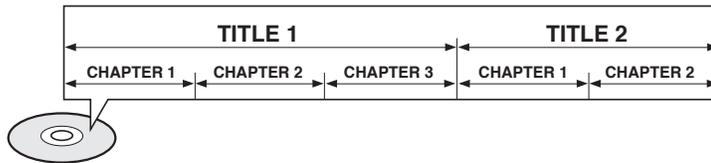

Tracks (Video and music CDs)

● Video and music CDs are divided into sections called "tracks". Numbers are allotted to these sections. These numbers are called "track numbers".

TRACK 1	TRACK 2	TRACK 3	TRACK 4	TRACK 5
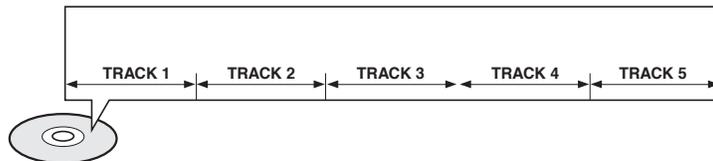

Note • **In this manual, the instructions marked with "DVD (DVD)" are applicable to DVD-VIDEO, DVD-AUDIO, and DVD-R/RW discs.**
Where a particular DVD type is mentioned, it is indicated separately.

● Depending on the content of the disc, the initial screen may appear different.

Disc Playback

1 Press **OPEN/CLOSE** button to open the disc tray.

2 Load one or more discs.
- Place a disc gently into the tray with the disc's label facing up.

3 Press **DISC SKIP** button.
- Rotate the carousel tray so you can load the third, fourth, and fifth discs .

4 Close the compartment by pressing the **OPEN/CLOSE** button again.

DVD   VCD   CD

- Playback starts automatically.

To stop playback, press **STOP** during playback.

- If pressed once, "**PRESS PLAY**" is displayed and the stop position will be stored in memory.
  If **PLAY/PAUSE** (▶/‖) button or **ENTER** button is pressed, playback resumes from the stop position. (This function works only with DVDs.)
- If pressed twice, "**STOP**" is displayed, and if **PLAY/PAUSE** (▶/‖) button is pressed, playback starts from the beginning.
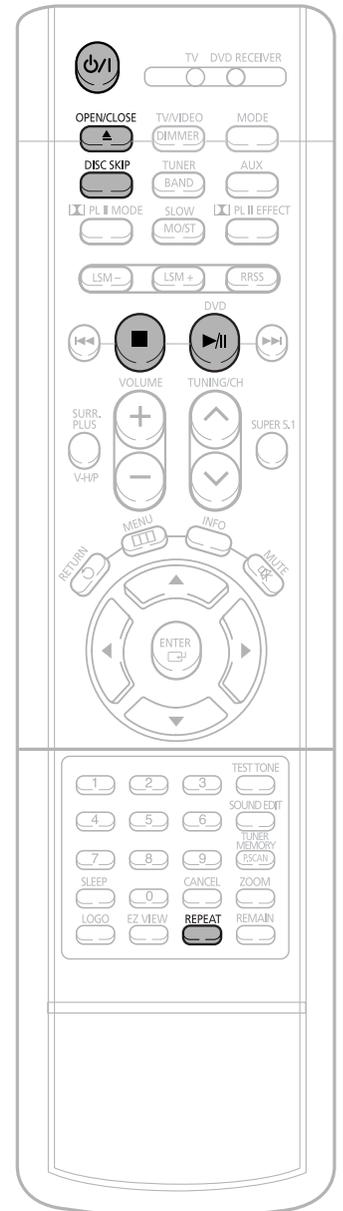

To temporarily pause playback, press **PLAY/PAUSE** during playback.

- To resume playback, press **PLAY/PAUSE** (▶/‖) button again.

Selecting a Disc in the Disc changer

The DVD/CD function is automatically selected when Disc Skip is pushed.

To select a specific disc, press the corresponding **DIRECT PLAY (1, 2, 3, 4, 5)** buttons on the front panel or **DISC SKIP** on the remote control, until the required disc indicator flashes.

• All the discs will be played in turn, starting with the one selected.

If you wish to play the current disc only, press **REPEAT** on the front panel one or more times, until **REPEAT : DISC** is displayed.

If the disc selected is not loaded, the next disc is played automatically.

24

MP3-CD Playback

Data CDs (CD-R, CD-RW) encoded in MP3 format can be played.

1 Press the **OPEN/CLOSE** button to open the disc tray, and then load the MP3 disc.

- The MP3 menu screen will appear and playback will start.
- Depending on the MP3 disc, the appearance of the menu may be different.

| 01 Beyond The H | 01:20 | Off |

| 05 | Directory | 22 | Files |

BEST OF CF D   01 Beyond The H
Cinema Paradis   02 Betty
Edith Piaf   03 Foever
Enya   04 IOU
Jeorge Winston   05 Those Were T
Love Story

2 In Stop mode, use ◄ ► ▲ ▼ to select the album, and then press the **ENTER** button.

3 To change the album, use ◄ ► ▲ ▼ to select another album in Stop mode, and then press the **ENTER** button.

- To select another album and track, repeat Steps 2 and 3 above.

4 Press the **STOP** button to stop playback.
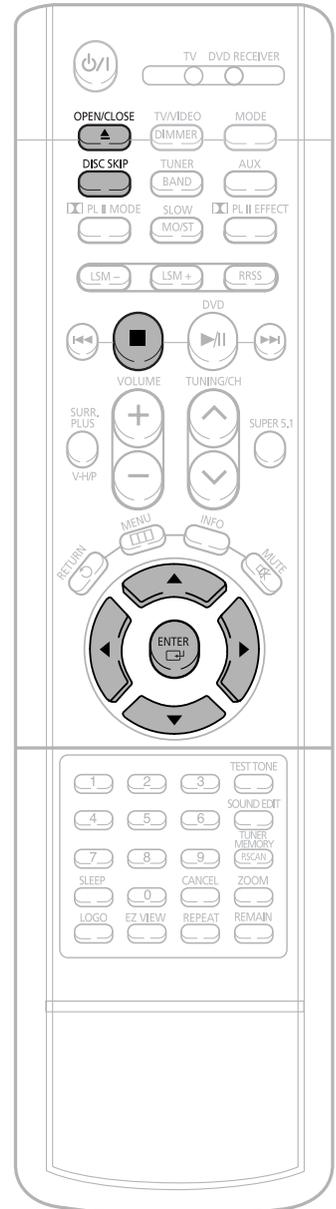

Note
- Depending on the recording mode, some MP3-CDs may not play.
- Table of contents of a MP3-CD varies depending on the MP3 track format recorded on the disc.

25

JPEG Disc Playback

Images captured with a digital camera or camcorder, or JPG files on a PC can be stored on a CD and then played back with this unit.

Press the **OPEN/CLOSE** button to open the disc tray, and then load the JPEG disc.

• Playback will start automatically and each image will show for 5 seconds before moving to the next image.

To rotate the image

During playback, press ▲ ▼ ◀ ▶ .

▲	Rotate vertically	◀	Rotate 90° counterclockwise
▼	Rotate horizontally	▶	Rotate 90° clockwise
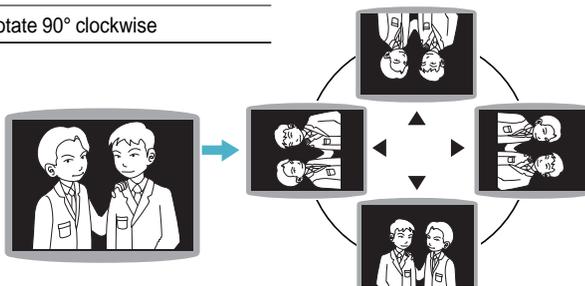

Displaying Disc Information

You can view disc playback information on the TV screen.

Press **INFO** button.

● Each time the button is pressed, the display changes as follows:

- You can press ⏮ ⏭ on the remote control to move directly to the desired title, chapter, or track.
- Depending on the disc, you may not be able to move to the selected title or time.

38

Using Disc Menu

You can use the menus for the audio language, subtitle language, profile, etc.
DVD menu contents differ from disc to disc.

DVD

1 In Stop mode, press **MENU** button.

- When playing a VCD (version 2.), this toggles between PBC ON and OFF.

2 Press Cursor ▲ ,▼ buttons to move to 'DISC MENU' and then press **ENTER** button.

- When you select the disc menu that is not supported by the disc, the "**This menu is not supported**" message appears on the screen.

3 Press Cursor ▲ ,▼, ◄ ,► buttons to select the desired item.
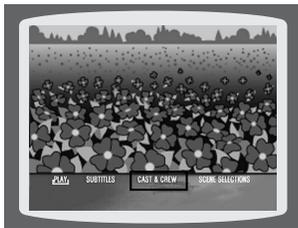

4 Press **ENTER** button.
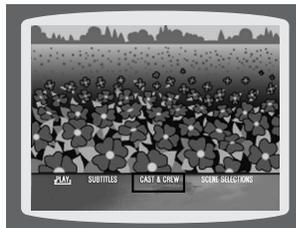

Note | **PBC (Playback Control) Function**

Press the MENU button while VCD 2.0 version disk is played.
Each time you press the button, "**PBC ON**" and "**PBC OFF**" will be repetitively selected in the display.

· **PBC ON:** This VCD disc is version 2.0. The disc is played back according to the menu screen.
 Some functions may be disabled. When some functions are disabled, select "PBC OFF" to enable them.
· **PBC OFF:** This VCD disc is version 1.1. The disc is played back in the same way as with a music CD.
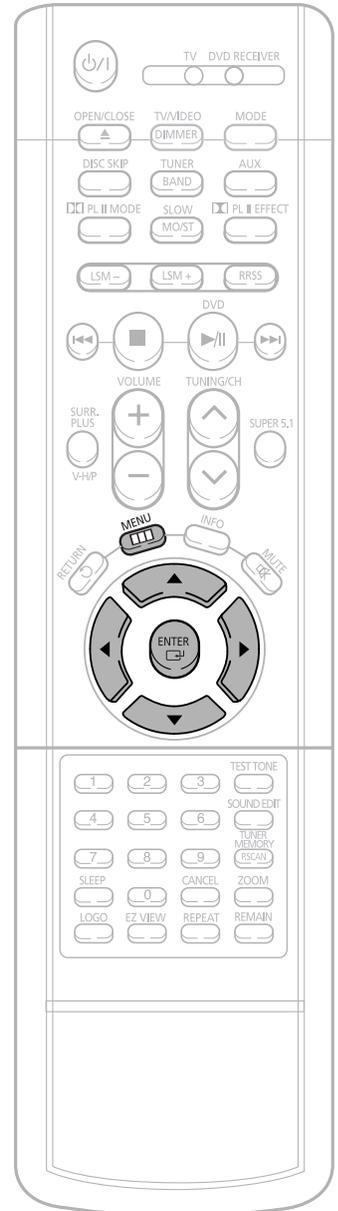

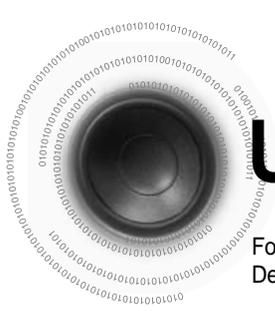

Using the Title Menu

For DVDs containing multiple titles, you can view the title of each movie.
Depending on the disc, this function may either not work at all or may work differently.

DVD

1 In Stop mode, press **MENU** button.

2 Press Cursor ▲,▼ button to move to 'Title Menu'.

3 Press **ENTER** button.

• The title menu appears.
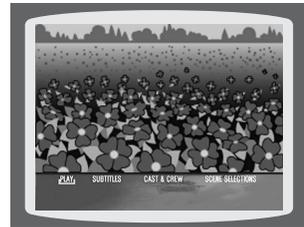

Press **MENU** button to exit the setup screen.

Setting the Language

OSD language is set to English by default.

1 In Stop mode, press **MENU** button.

2 Press Cursor ▼ button to move to 'Setup' and then press **ENTER** button.

3 Press **ENTER** button.

Note

• To select other language, select OTHER and enter the language code of your country.
(See 42 page for language code of countries)
AUDIO, SUB TITLE and DISC MENU language can be selected.

4 Press Cursor ▲,▼ button to select the desired item and then press **ENTER** button.

5 Press Cursor ▲,▼ button to select the desired language and then press **ENTER** button.

• Once the setup is complete, if the language was set to English, OSD will be displayed in English.

Selecting the OSD Language

Selecting the Audio Language (recorded on the disc)

Selecting the Subtitle Language (recorded on the disc)

Selecting the Menu Language (recorded on the disc)

* If the language you selected is not recorded on the disc, menu language will not change even if you set it to your desired language.

Press **RETURN** button to return to the previous level.

Press **MENU** button to exit the setup screen.
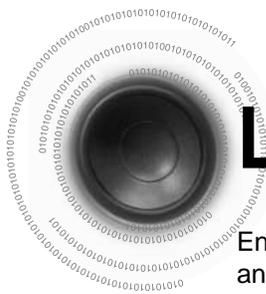

Language Code List

Enter the appropriate code number for the initial settings "Disc Audio", "Disc Subtitle" and/or "Disc Menu" (See page 41).

SETUP

Setting TV Screen type

Depending on your TV type (Wide Screen TV or conventional 4:3 TV), you can select the TV's aspect ratio.

1 In Stop mode, press **MENU** button.

2 Press Cursor ▼ button to move to 'Setup' and then press **ENTER** button.

3 Press Cursor ▼ button to move to 'TV DISPLAY' and then press **ENTER** button.

4 Press Cursor ▲,▼ button to select the desired item and then press **ENTER** button.

• Once the setup is complete, you will be taken to the previous screen.

Press **RETURN** button to return to the previous level.

Press **MENU** button to exit the setup screen.

43
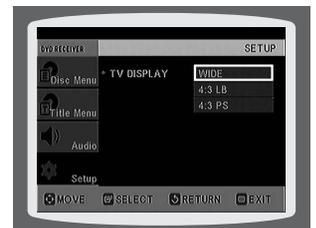

Adjusting the TV Aspect Ratio (Screen Size)

The horizontal to vertical screen size ratio of conventional TVs is 4:3, while that of wide screen and high definition TVs is 16:9. This ratio is called the aspect ratio. When playing DVDs recorded in different screen sizes, you should adjust the aspect ratio to fit your TV or monitor.

✳ For a standard TV, select either "4:3LB" or "4:3PS" option according to personal preference. Select "16:9" if you have a widescreen TV.

WIDE

: Select this to view a 16:9 picture in the full-screen mode on your widescreen TV.
·You can enjoy the widescreen aspect.

4:3LB
(4:3 Letterbox)

: Select this to play a 16:9 picture in the letter box mode on a conventional TV.
·Black bars will appear at the top and bottom of the screen.

4:3PS
(4:3 Pan&Scan)

: Select this to play a 16:9 picture in the pan & scan mode on a conventional TV.
·You can see the central portion of the screen only (with the sides of the 16:9 picture cut off).

SETUP

Note
· If a DVD is in the 4:3 ratio, you cannot view it in widescreen.
· Since DVD discs are recorded in various image formats, they will look different depending on the software, the type of TV, and the TV aspect ratio setting.

44

Setting Parental Controls (Rating Level)

Use this to restrict playback of adult or violent DVDs you do not want children to view.
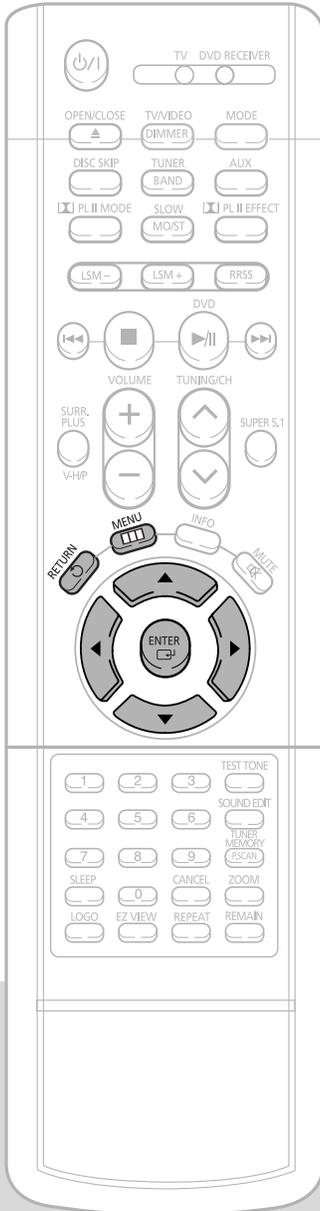

1 In Stop mode, press **MENU** button.

2 Press Cursor ▼ button to move to 'Setup' and then press **ENTER** button.

**3** Press Cursor ▼ button to move to 'PARENTAL' and then press **ENTER** button.
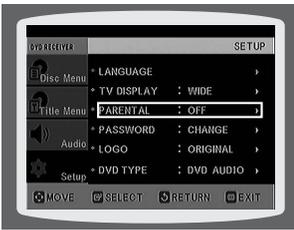

4 Press Cursor ▲,▼ buttons to select the desired rating level and then press **ENTER** button.

- If you have selected Level 6, you cannot view DVDs with Level 7 or higher.
- The higher the level, the closer the content is to violent or adult material.

5 Enter the password and then press **ENTER** button.

- The password is set to "7890" by default.
- Once the setup is complete, you will be taken to the previous screen.

Setting the Wallpaper JPEG VCD DVD

While watching a DVD, VCD or JPEG CD, you can set the image you like as background wallpaper.

Setting the Wallpaper

1 During playback, press **PLAY/PAUSE** button when an image you like appears.

‖ PAUSE
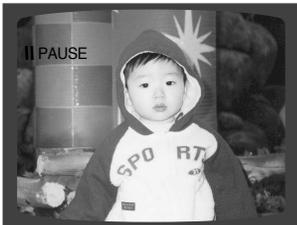

2 Press **LOGO** button.

• "**COPY LOGO DATA**" will be displayed on the TV screen.

COPY LOGO DATA

3 The power will turn off and then back on and the disc tray will open automatically.

• The selected wallpaper will be displayed.

4 Press **OPEN/CLOSE** to close the disc tray.

• You can repeat Steps 1 and 2 to set up to 3 wallpapers.
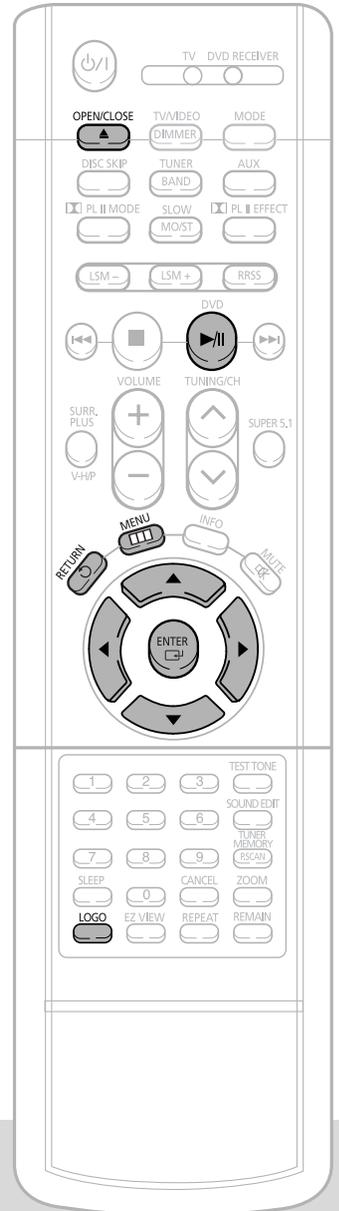

Select this to set the Samsung Logo image as your wallpaper.

Select this to set the desired image as your wallpaper.

➤➤ To Change the Wallpaper

1 In Stop mode, press **MENU** button.

2 Press Cursor ▼ button to move to 'Setup' and then press **ENTER** button.

**3** Press Cursor ▼ button to move to 'LOGO' and then press **ENTER** button.

4 Press ▼ to select the desired 'USER', and then press **ENTER**.

5 Press **MENU** button to exit the setup screen.

Press **RETURN** button to return to the previous level.

Press **MENU** button to exit the setup screen.

50

DVD Playback Mode

Some DVD-Audio discs contain DVD-Video as well as DVD-Audio.
To play back the DVD-Video portion of the DVD-Audio disc, set the unit to DVD-Video mode.
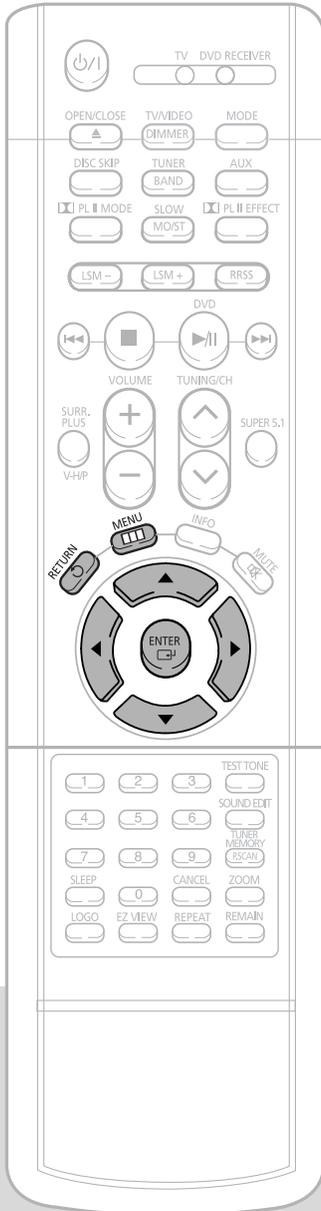

1 Press the **MENU** button while the disc tray is open.

2 Press Cursor ▼ button to move to 'Setup' and then press **ENTER** button.

3 Press Cursor ▼ button to move to 'DVD TYPE' and then press **ENTER** button.

4 Press Cursor ▲,▼ button to move to 'DVD VIDEO' and then press **ENTER** button.

• Set steps 1 ~ 4 again if you want to switch to DVD AUDIO Play mode.

When Selecting DVD Play Mode:
• **DVD VIDEO** : set to play the DVD video contents contained in DVD audio disc.
• **DVD AUDIO** : set to play the default DVD audio.

Note

• DVD Play mode is set to DVD Audio as factory default setting.

Press **RETURN** button to return to the previous level.

51

Press **MENU** button to exit the setup screen.

AV SYNC Setup

Video may look slower than the audio if it is connected with digital TV.
In this case, adjust the delay time of audio to optimal status to fit the video.

1 Press the **MENU** button.

• Setup menu appears.

2 Press Cursor ▲ , ▼ buttons to move to 'Audio' and then press **ENTER** button.

• 'Audio' menu appears.

3 Press Cursor ▲ , ▼ buttons to move to 'AV-SYNC' and then press **ENTER** button.

• AV-SYNC screen appears.

4 Press Cursor ▲ , ▼ buttons to select the Delay Time of AV-SYNC and then press the **ENTER** button.

• You can set the audio delay time between 0 ms and 300 ms. Set it to the optimal status.

Press **RETURN** button to return to the previous level.

Press **MENU** button to exit the setup screen.

Setting the Speaker Mode

Signal outputs and frequency responses from the speakers will automatically be adjusted according to your speaker configuration and whether certain speakers are used or not.

1 In Stop mode, press **MENU** button.

      Setup
MOVE  SELECT  RETURN  EXIT
```

4 Press Cursor ▲, ▼, ◀, ▶ buttons to move to the desired speaker and then press **ENTER** button.

- For C, LS, and RS, each time the button is pressed, the mode switches alternately as follows: SMALL → NONE.
- For L and R, the mode is set to SMALL.

```
DVD RECEIVER              SPEAKER SETUP
   SMALL     SMALL    Present    SMALL
   SMALL      USER               SMALL
MOVE  CHANGE  RETURN  EXIT
```
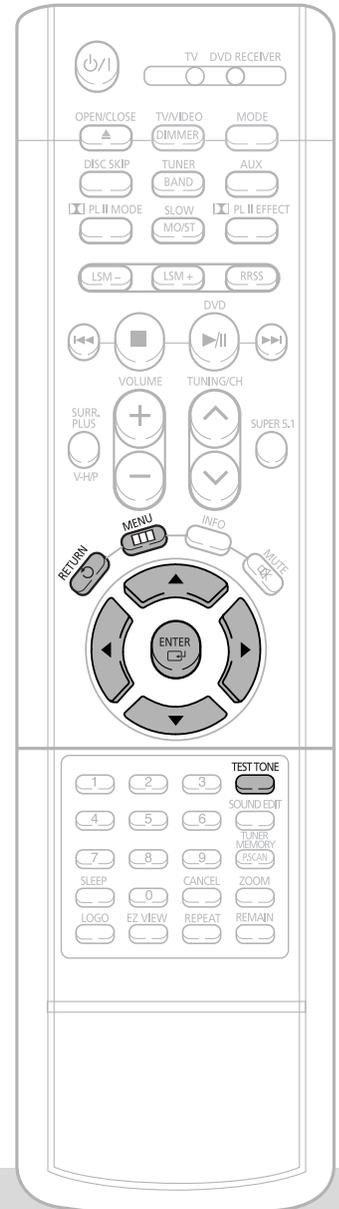

SMALL : Select this when using the speakers.
NONE : Select this when no speakers are installed.

Note

- Depending on PRO LOGIC and STEREO, the speaker mode may vary.

Setting the Test Tone

Use the Test Tone feature to check the speaker connections and to adjust the speaker levels.

1 In Stop mode, press **MENU** button.

2 Press Cursor ▼ button to move to 'Audio' and then press **ENTER** button.

3 Press Cursor ▼ button to move to 'TEST TONE' and then press **ENTER** button.

• The test tone will be sent to L → C → R → RS → LS → SW in that order. If the ENTER button is pressed again at this time, the test tone will stop.

Press **RETURN** button to return to the previous level.

Press **MENU** button to exit the setup screen.

Alternate method: press the **TEST TONE** button on the remote.

| L: Front Speaker (L) | C: Center Speaker | SW: Subwoofer |
| R: Front Speaker (R) | LS: Rear Speaker (L) | RS: Rear Speaker (R) |

Press **TEST TONE** button.

• Test tone will be produced as follows: When playing a DVD or CD, this will work only in Stop mode.
• Use this function to check that each speaker is correctly connected and that there is no problem.

To end the test tone, press **TEST TONE** button again.

Multi-Channel Pro Logic Mode

SW → L Start → C → R → RS → LS → SW

Setting up the Speaker Delay Time

When 5.1CH Surround Sound is played, you can enjoy the best sound if the distance between you and each speaker is the same. Since the sounds arrive at the listening position at different times depending on the placement of speakers, you can adjust this difference by adding a delay effect to the sound of the Center and Surround Speakers.

Note

• With ▣PL (Dolby Pro Logic II), the delay time may be different for each mode.
• With AC-3 and DTS, the delay time can be set between 00 and 15mSEC.

3 Press Cursor ▼ button to move to 'DELAY TIME' and then press **ENTER** button.

4 Press Cursor ▲, ▼, ◄, ► buttons to move to the desired speaker and then press **ENTER** button.

5 Press Cursor ▲, ▼ to set the Delay time.

• You can set the delay time for C between 00 and 05mSEC and for LS and RS between 00 and 15mSEC.

• **Setting CENTER SPEAKER**
If the distance of Dc is equal to or longer than the distance of Df in the figure, set the mode as 0ms. Otherwise, change the setting according to the table.

Distance between Df and Dc	Delay Time
0 inch	0 ms
13.6 inches	1 ms
27.2 inches	2 ms
40.8 inches	3 ms
4.5 feet	4 ms
5.6 feet	5 ms

• **Setting REAR (SURROUND) SPEAKERS**
If the distance of Df is equal to the distance of Ds in the figure, set the mode as 0ms. Otherwise, change the setting according to the table.

Distance between Df and Ds	Delay Time
0 inch	0 ms
40.8 inches	3 ms
6.7 feet	6 ms
10.0 feet	9 ms
13.4 feet	12 ms
16.7 feet	15 ms

```

Adjusting Subwoofer Speaker Level

5 Press **SOUND EDIT** button and then press Cursor ◀ , ▶ .

```
SW +01dB
```

SETUP

Note

● **The adjustments will appear on the main unit, not on your TV screen.**

Adjusting Front/Rear Speaker Balance
• You can select between 00 and –06 and OFF.
• The volume decreases as you move closer to –6.

Adjusting Center/Rear/Subwoofer Speaker Level
• The volume level can be adjusted in steps from +6dB to –6dB.
• The sound gets louder as you move closer to +6dB and quieter as you get closer to -6dB.

58

Setting the DRC (Dynamic Range Compression)

You can use this function to enjoy Dolby Digital sound when watching movies at low volume at night.
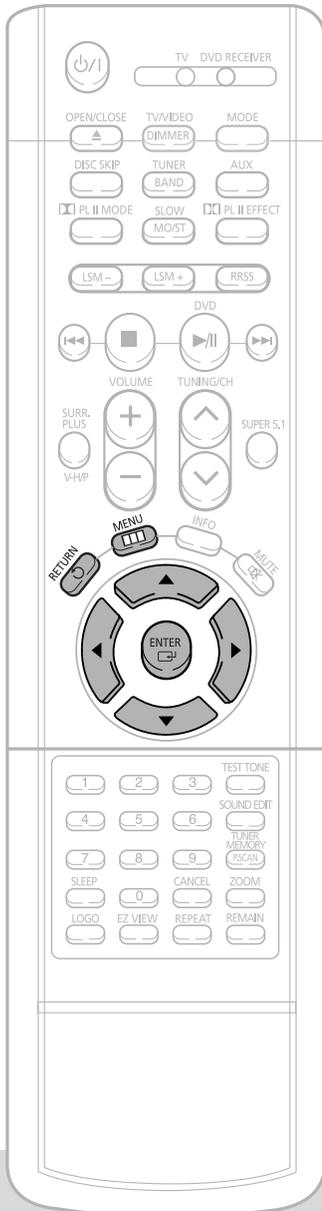

1 In Stop mode, press **MENU** button.

2 Press Cursor ▼ button to move to 'Audio' and then press **ENTER** button.

3 Press Cursor ▼ button to move to 'DRC' and then press **ENTER** button.
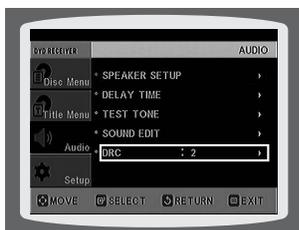

4 Repeatedly press Cursor ▲ ,▼ to adjust the 'DRC'.

- Pressing the Cursor ▲ button increases the compression, and pressing the Cursor ▼ reduces it.

Press **RETURN** button to return to the previous level.

Press **MENU** button to exit the setup screen.

60

Dolby Pro Logic II Mode

You can select the desired Dolby Pro Logic II audio mode.

Press ▣ **PL II MODE** button.

• Each time the button is pressed, the mode changes as follows.

LINEAR PCM		
MUSIC		
CINEMA		
ProLCGIC II	PRO LOGIC	
MATRIX		
STEREO		
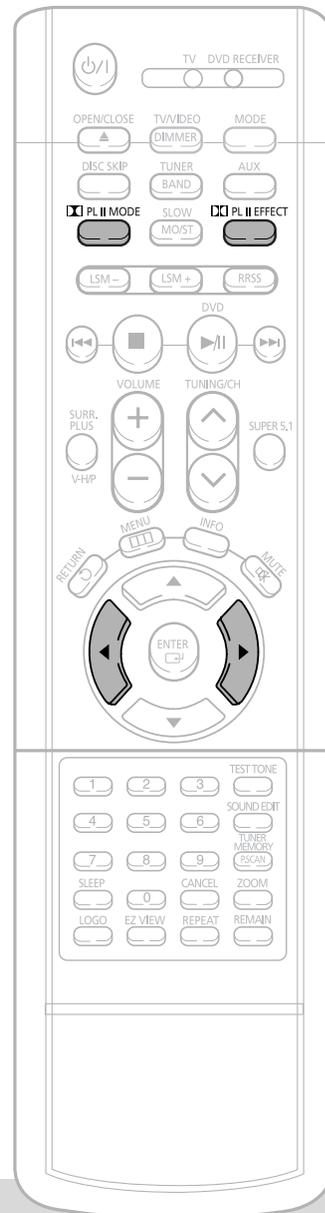

Note • When selecting Pro Logic II mode, connect your external device to the AUDIO INPUT jacks (L and R) on the player. If you connect to only one of the inputs (L or R), you cannot listen to 5.1 channel surround sound.

PRO LOGIC II

• **MUSIC:** When listening to music, you can experience sound effects as if you are listening to the actual performance.
• **CINEMA:** Adds realism to the movie soundtrack.
• **PRO LOGIC:** You will experience a realistic multi-channel effect, as if using five speakers,
    while using just the front leftand right speakers.
• **MATRIX:** You will hear 5.1 channel surround sound.
• **STEREO:** Select this to listen to sounds from the front left and right speakers and the subwoofer only.

Dolby Pro Logic II Effect

This function works only in Dolby Pro Logic MUSIC mode.

1 Press ◻◻ **PL II MODE** button to select 'MUSIC' mode.

LINEAR PCM
DD PRO LOGIC II   MUSIC   L C R SW LS RS

2 Press ◻◻ **PL II EFFECT** button and then press Cursor ◄ , ► buttons to select the mode.

• You can select either 0 or 1.

LINEAR PCM
DD PRO LOGIC II   PANORAMA 1   L C R SW LS RS

3 Press ◻◻ **PL II EFFECT** button and then press Cursor ◄ , ► buttons to select the next mode.

• You can select between 0 and 7.

LINEAR PCM
DD PRO LOGIC II   C-WIDTH 2   L C R SW LS RS

4 Press ◻◻ **PL II EFFECT** button and then press Cursor ◄ , ► buttons to select the mode.

• You can select between 0 and 6.

LINEAR PCM
DD PRO LOGIC II   DIMENS 6   L C R SW LS RS

SETUP

Note • When playing a DVD disc encoded with two or more channels, multi-channel mode will be selected automatically and ◻◻PL II (Dolby Pro Logic II) button does not work.

• **PANORAMA:** This mode extends the front stereo image to include the surround speakers for an exciting "wraparound" effect with side wall imaging.
• **CENTER WIDTH:** Sound is output to the center speaker only. The front left and right speakers produce phantom sound.
• **DIMENSION:** Incrementally adjusts the sound field (DSP) from the front or rear.

Setting the RRSS(Rear Reflecting Surround System)

- By setting up the RRSS function just once, the speaker distance, channel level, and rear sound reflection effect are automatically set and create an optimal listening environment.
- This function works only in DVD/CD mode.

1 Connect the RRSS Microphone to the RRSS input jack.

2 Place the RRSS Microphone at the listening position.

3 Press the **RRSS** button.

- A speaker tone will be heard once from each speaker in the order of L → C → R → RS → LS → SW, and then the newly set error tone will be heard again from L → R.
- An optimal listening environment will be set up automatically.
- It takes about 3 to 4 minutes to complete the RRSS setup.

REAR REFLECTING SOUND CALIBRATION

USER ◆◆◆◆◆◆

LS RS

| L | C | R | RS | LS | SW |

Tone Output

A piano sound will be heard and the setup will be completed.

4 When "**REMOVE MIC**" appears on the display, disconnect the RRSS Microphone.
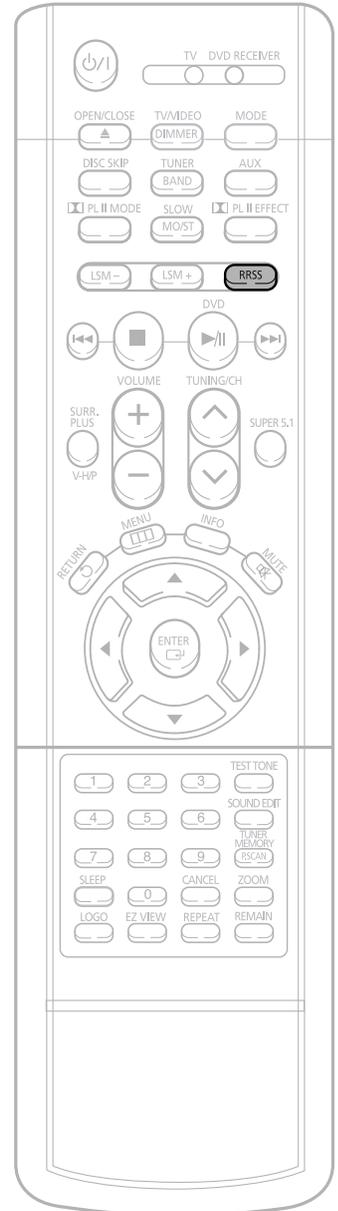

Note

- The RRSS button works as the RRSS setup function shown above if the RRSS Microphone is connected, and works as the rear sound reflection effect function if the microphone is removed.
- If you are installing the system for the first time or if you have initialized the system, "NO MEASURED DATA" will appear on the display when you press the RRSS button without connecting the RRSS Microphone.
- During the RRSS setup, the output volume of the tone is fixed and you cannot use the volume control buttons to adjust the output level.
- If you remove the RRSS Microphone during the RRSS setup, the setup will be cancelled.
- Place the front and left speakers (L/R) toward the side walls so that the rear speaker sound is reflected against the walls.

★ This drawing is provided for illustration purposes only and the actual appearance of the items depicted may vary.
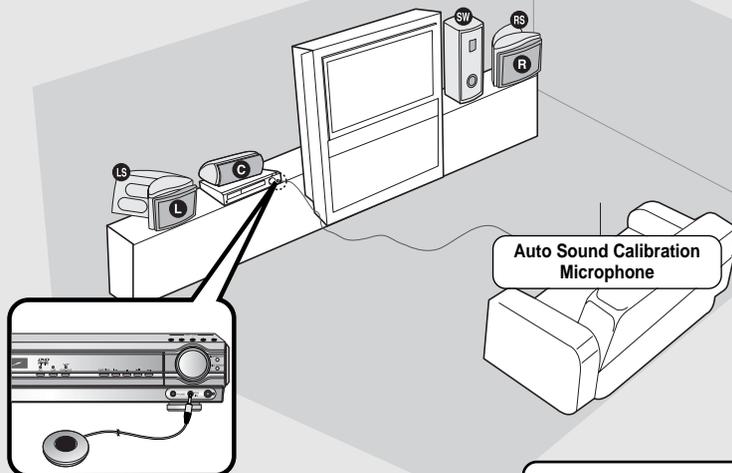

Auto Sound Calibration Microphone

L: Front Speaker (L)	R: Front Speaker (R)
C: Center Speaker	SW: Subwoofer
LS: Rear Speaker (L)	RS: Rear Speaker (R)

To select the RRSS that you have set

Briefly press the **RRSS** button.

(If you have set the RRSS for the first time according to Steps 1 to 3 on the previous page)

- Your selection will toggle between "**REAR REFLECTING ON**" and "**REAR REFLECTING OFF**" on the display.
- Select "**REAR REFLECTING ON**" to listen using the RRSS setting and select "**REAR REFLECTING OFF**" to listen to the disc currently being played in its original setting.

To check the RRSS that you have set

1. Press and hold the **RRSS** button twice.
  - "**CHECK**" appears on the display.

2. Next,briefly press the **RRSS** button.
  - The speaker distance and level value for each channel will be displayed.

To cancel the RRSS setup

Press the **RRSS** button.

- The tone output stops, "**CANCEL**" appears on the display, followed by "**REMOVE MIC**", and then the setup will be cancelled.

To enable or disable the sound logo

When you turn on the power, a sound logo will be heard, indicating that the disc reading is completed and the player is in its optimal condition to play the disc.

1. Press and hold the **RRSS** button.
  - "**S.LOGO ON**" or "**S.LOGO OFF**" appears on the display.

2. Briefly press the **RRSS** button.
  - Each time you press the button, your selection toggles between "**S.LOGO ON**" and "**S.LOGO OFF**".
  - Select "**S.LOGO ON**" to enable the sound logo and select "**S.LOGO OFF**" to disable the sound logo.

Caution

- If the system is installed at a location where sound cannot be reflected (e.g., an open space without walls), the speaker distance, channel level, and rear sound reflection effect may be set incorrectly during the RRSS setup.

SETUP

64

Rear Reflecting Surround System

You can enjoy realistic sound reproduction that approximates 5.1-channel surround sound using the front speakers.

1 Press the **RRSS** button to select "**REAR REFLECTING ON**".

2 To cancel the rear sound reflection function, press the **RRSS** button again to select "**REAR REFLECTING OFF**".

• The rear sound reflection function will be enabled and you can enjoy the 5.1-channels surround sound.

`REAR RE_ON`

`REAR R_OFF`

What is RRSS?

(**RRSS**: Rear Reflecting Surround System)

• The sound from the front/rear speakers, which are located in the front, is first reflected against the side walls (or the ceiling) and then reflected against the rear wall before reaching the listener.
It allows you to enjoy the realistic sound reproduction equal to that of a 5.1-channel speaker system using only 3 speakers.

• It not only increases space efficiency but eliminates the need for speaker cable arrangement because it does not require installation of rear speakers.
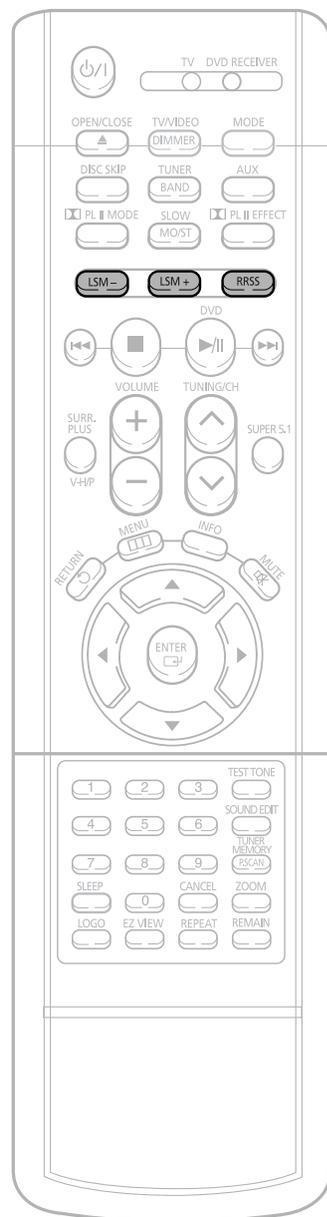

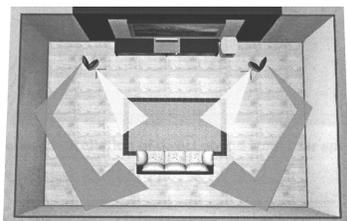

Live Surround Mode

You can use the magic sound field to listen to 2-channel stereo sources in realistic 5.1-channel surround sound.

1 Play a Dolby Surround or 2-Channel disc, or listen to the radio.

2 Each time you press the **LSM +** button, the mode display changes in the order shown below. Each time you press the **LSM –** button, the mode display changes in the reverse order.

- **CINEMA** : A powerful sound field effect as in a movie theater.
- **STADIUM** : A sound field effect of being at a soccer or baseball game.
- **LIVE** : A sound field effect with a spatial feeling as in a live concert hall.
- **JAZZ** : Select this when listening to jazz.
- **ROCK** : Select this when listening to rock music.
- **CLASSIC** : Select this when listening to classical music.
- **DISCO** : A sound field with a powerful bass as in a disco club.
- **SUPER 5.1** : Select this to listen to a 2 channel source in 5.1 channels.
- **LSM OFF** : If you press the Live Surround Mode button on the main unit, the mode display will appear on the display in the same order as pressing the **LSM +** button on the remote control.

3 To cancel the magic sound field function, press and hold the **Live Surround Mode** button on the main unit for longer than 1 second.

SETUP

Note

- Depending on the disc being played, the effect of each sound field may vary.
- You cannot select SUPER 5.1 mode when playing a DVD disc recorded in more than 2 channels.

SURROUND PLUS / Virtual Headphone

The Surround Plus function works when the headphone is not connected, and the Virtual Headphone function works when the headphone is connected.

SURROUND PLUS

Enable the Surround plus function if you have installed the system at a location where sound cannot be reflected.
You will enjoy the same experience that you can at a theater.

1 Press the **SURR. PLUS** button to select the surround plus function.

• It helps to deliver more effective 3D sound.

SURR. PLUS

2 To cancel the surround plus function, press the **SURR. PLUS** button again.

SURR. OFF

Note
• This function works only with DVDs recorded in more than 2 channels.
• The surround plus function does not work with 2-channel sources such as music CDs or MP3 CDs.

Virtual Headphone

You can enjoy a realistic sound very similar to that of a 5.1-channel sound system using regular stereo headphones.

1 Press the **V-H/P** button to select "**VIRTUAL ON**".

• You can enjoy the feeling of being in the middle of a concert hall using headphones.

VIRTUAL ON

2 To cancel this function, press the **V-H/P** button to select "**VIRTUAL OFF**".

• You can listen in a regular 2-channel stereo.

VIRTUALOFF

67

SUPER 5.1

You can reproduce 2-channel sources, such as VCDs, CDs, and radio broadcasts, in realistic 5.1-channel surround sound.
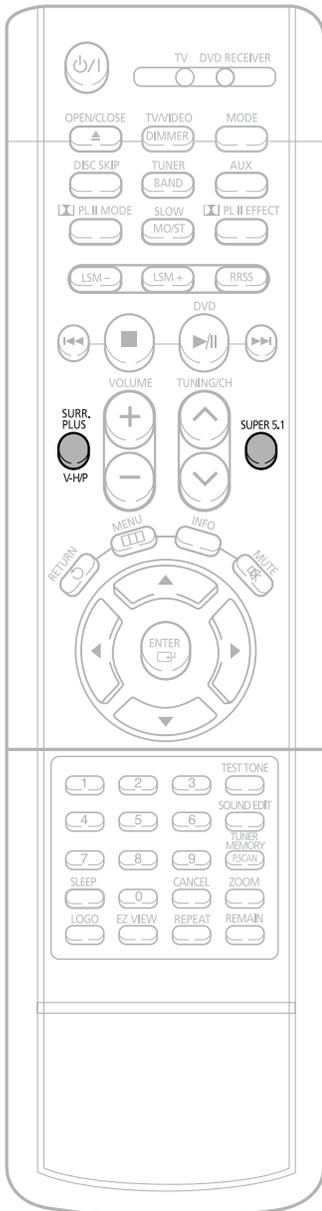

1 Press the **SUPER 5.1** button to select "**SUPER 5.1**".

- A 2-channel source will be reproduced in 5.1 channels.

SUPER 5.1

2 To cancel this function, press the **SUPER 5.1** button to select "**SUPER OFF**".

SUPER OFF

Note

- If you insert a DVD recorded in more than 2 channels and press the SUPER 5.1 button, "**THIS FUNCTION APPLIES ONLY 2CH SOURCE**" will appear on the display and the function will not work.

SETUP

68

Listening to Radio

You can listen to the chosen band (FM, AM broadcast stations) by using either the automatic or manual tuning operation.

Remote Control Unit

1 Press **TUNER/ BAND** button.

- The selection toggles back and forth between "FM" and "AM" each time the **TUNER(BAND)** button is pressed.

2 **Tune in to the desired station.**

Automatic Tuning 1 When ◄◄ ►► is pressed, a preset broadcast station is selected.

Automatic Tuning 2 Press and hold ⌃⌄ to automatically search for active broadcasting stations.

Manual Tuning Briefly press ⌃⌄ to increase or decrease the frequency incrementally.

Main Unit

1 Press the **Function** button to select the desired band (FM, AM).

2 Select a broadcast station.

Automatic Tuning 1 Press the **STOP** (■) button to select PRESET and then press ◄◄ ►► button to select the preset station.

Automatic Tuning 2 Press the **STOP** (■) button to select "MANUAL" and then press and hold ◄◄ ►► button to automatically search the band.

Manual Tuning Press **STOP** (■) to select MANUAL and then briefly press ◄◄ ►► to tune in to a lower or higher frequency.

Press **MO/ST** button to listen in Mono/Stereo.
(This applies only when listening to an FM station.)

- Each time the button is pressed, the sound switches between "STEREO" and "MONO".
- In a poor reception area, select MONO for a clear, interference-free broadcast.

69

Presetting Stations

Y   **o**   **u**

- 15 FM stations
- 15 AM stations

- **FM** ....Frequency Modulation
- **AM** ....Medium Wave

Example: Presetting FM 89.1 in the memory

1 Press the **TUNER(BAND)** button and select the FM band.

- Each time the button is pressed, the band switches between "FM" and "AM".

`FM 91.90 MHz`

2 Press ⌃⌄ to select "89.10".

- Refer to Step 2 on page 69 to automatically or manually tune in to a station.

`FM 8910 MHz`

3 Press the **TUNER MEMORY** button.

- "PRGM" flashes in the display.

`01 FM 8910 MHz`

**4** Press ⏮ ⏭ to select preset number.

- You can select between 1 and 15.

`02 FM 8910 MHz`

5 Press the **TUNER MEMORY** button again.

- Press the **TUNER MEMORY** button before 'PRGM' disappears from the display.
- 'PRGM' disappears from the display and the station is stored in memory.

`FM 8910 MHz`

**6** To preset another station, repeat steps 2 to 5.

To tune in to a preset station, press ⏮ ⏭ on the remote control to select a channel.
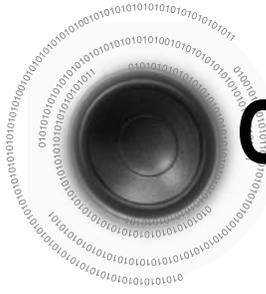

Convenient Functions

>>> Sleep Timer Function

You can set the time that the DVD player will shut itself off.

Press **SLEEP** button.

- "SLEEP" will be displayed. Each time the button is pressed, the preset time changes as follows: 10 → 20 → 30 → 60 → 90 → 120 → 150 → OFF.

SLEEP 10

To confirm the sleep timer setting, press **SLEEP** button.

- The remaining time before the DVD player will shut itself off is displayed.
- Pressing the button again changes the sleep time from what you have set earlier.

To cancel the sleep timer, press **SLEEP** button until OFF appears on the display.
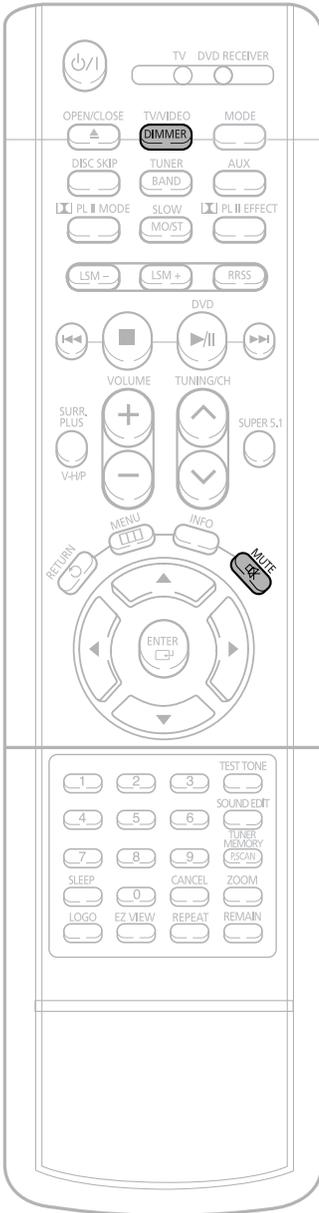

Adjusting Display Brightness

You can adjust the brightness of the display on the main unit so it won't interfere with your movie viewing.

Press **DIMMER** button.

- Each time the button is pressed, the brightness changes as follows: **SLIGHTLY DARK → DARK → BRIGHT**.
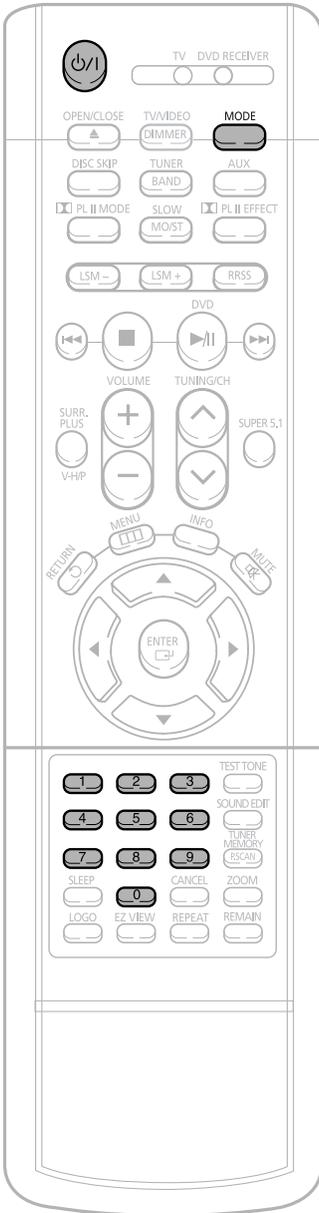

Mute Function

This is useful when answering the door or a telephone call.

Press **MUTE** button.

- 'MUTE ON' appears in the display.
- To restore the sound, press the button again to select 'MUTE OFF'.

MUTE ON

Operating a TV with the Remote Control

When operating a TV with the remote control

1 Press the **MODE** button to make the TV indicator on the remote control flash.

2 Press **POWER** button to turn on the TV.

3 Point the remote control toward the TV.

4 While holding down **POWER**, enter the code corresponding to your brand of TV.

- If the code matches the TV's code, the TV will be turned off.
- If there is more than one code listed for your TV in the table, enter one at a time to determine which code works.

Example: For a Samsung TV
While holding down **POWER**, use the number buttons to enter 00, 01, 02, 03, 04, and 05.

5 Pont the remote control toward the TV and press **POWER**. If the TV turns off or on, the setting is complete.

- You can use the TV POWER, VOLUME, CHANNEL, and Numeric buttons (0~9).

Note

- The remote control may not work on some brands of TVs. Also some operations may not be possible depending on your brand of TV.
- If you do not set the remote control with the code for your brand of TV, the remote control will work on a Samsung TV by default.

Before Calling for Service

Refer to the chart below when this unit does not function properly. If the problem you are experiencing is not listed below or if the instruction below does not help, turn off the unit, disconnect the power cord, and contact the nearest authorized dealer or Samsung Electronics Service Center.

| Symptom	Check/Remedy
Disc tray does not open.	• Is the power cord plugged securely into the outlet? • Turn off the power and then turn it back on.
Playback does not start.	• Is the region code of the disc "1" or "ALL"? DVD discs purchased from abroad may not be playable. • CD-ROMs and DVD-ROMs cannot be played on this DVD player. • Make sure that the rating level is correct.
Playback does not start immediately when the Play/Pause button is pressed.	• Are you using a deformed disc or a disc with scratches on the surface? • Wipe the disc clean.
Sound is not produced.	• No sound is heard during fast playback, slow playback, and step motion playback. • Are the speakers connected properly? Is the speaker setup correctly customized? • Is the disc severely damaged?
Sound can be heard only from a few speakers and not all six.	• When listening to a CD or radio, sound is output to the front speakers (L/R) only. Select "PRO LOGIC II" by pressing ▣PL Ⅱ (Dolby Pro Logic II) on the remote control to use all six speakers. • Make sure that the DVD disc is 5.1-CH compatible. • If you set C, SL, and SR to NONE in the speaker mode in the audio setup of the setup screen, no sound is heard from the center speaker and the front left and right speakers. Set C, SL, and SR to SMALL.
Picture does not appear, sound is not produced, or the disc tray opens 2 to 5 seconds later.	• Was the DVD player suddenly moved from a cold place to a warm one? When condensation forms inside the player, remove the disc and let the player stand for 1 or 2 hours with the power on. (You can use the player again after condensation disappears.)
Dolby Digital 5.1 CH Surround Sound is not produced.	• Is there a "Dolby Digital 5.1 CH" mark on the disc? Dolby Digital 5.1 CH Surround Sound is produced only if the disc is recorded with 5.1 channel sound. • Is the audio language correctly set to DOLBY DIGITAL 5.1-CH in the information display?

Symptom	Check/Remedy
• Disc is rotating but no picture is produced. **• Picture quality is poor and picture is shaking.**	• Is the TV power on? • Are the video cables connected properly? • Is the disc dirty or damaged? • A poorly manufactured disc may not be playable.
The remote control does not work.	• Is the remote control being operated within its operation range of angle and distance? • Are the batteries exhausted?
Audio language and subtitles do not work.	• Audio language and subtitles will not work for DVDs not containing them. And depending on the disc, they may work differently.
Menu screen does not appear even when the menu function is selected.	• Are you using a disc that does not contain menus?
Aspect ratio cannot be changed.	• You can play 16:9 DVDs in 16:9 WIDE mode, 4:3 LETTER BOX mode, or 4:3 PAN SCAN mode, but 4:3 DVDs can be seen in 4:3 ratio only. Refer to the DVD disc jacket and then select the appropriate function.
Can't receive radio broadcast.	• Is the antenna connected properly? • If the antenna's input signal is weak, install an external FM antenna in an area with good reception.
• The main unit is not working. **(Example: The power goes out or a strange noise is heard.)** **• The DVD player is not working normally.**	• Turn off the power and hold the ○ button on the main unit for longer than 5 seconds. Using the RESET function will erase all stored settings. Do not use this unless necessary.
The password for rating level has been forgotten.	• While "NO DISC" message appears on the display of main unit, hold the main unit's ○ button for longer than 5 seconds. "INITIALIZE" appears on the display and all settings will return to the default values. • Press the POWER button. **Using the RESET function will erase all stored settings.** **Do not use this unless necessary.**

Cautions on Handling and Storing Discs

Small scratches on the disc may reduce sound and picture quality or cause skipping.
Be especially careful not to scratch discs when handling them.
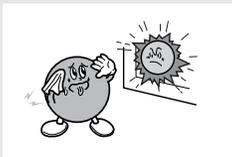

● Handling discs
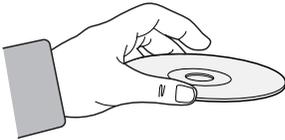

Do not touch the playback side of the disc. Hold the disc by the edges so that fingerprints will not get on the surface.
**Do not stick paper or tape on the disc.**

● Disc Storage

Do not keep in direct sunlight	Keep in a cool ventilated area	Keep in a clean Protection jacket. Store vertically.
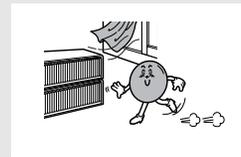

Caution
• Do not allow the discs to become contaminated with dirt.
• Do not load cracked or scratched discs.

● Handling and Storing Discs

When you get fingerprints or dirt on the disc, clean it with a mild detergent diluted in water and wipe with a soft cloth.
• When cleaning, wipe gently from the inside to the outside of the disc.

Note

• Condensation may form if warm air comes into contact with cold parts inside the player. When condensation forms inside the player, the player may not operate correctly. If this occurs, remove the disc and let the player stand for 1 or 2 hours with the power on.

Specifications

GENERAL	Power Consumption	100W	
	Weight	12.8lbs	
	Dimensions (W x H x D)	17.2 x 3.3 x 16.3 inches	
	Operating Temperature Range	41°F ~ 95°F	
	Operating Humidity Range	10% ~ 75%	
FM TUNER	Usable Sensitivity	10dB	
	S/N Ratio	55dB	
	Distortion	0.5%	
AM TUNER	Usable Sensitivity	65dB	
	S/N Ratio	35dB	
	Distortion	2%	
VIDEO INPUT	Component Video	Y:1.0Vp-p(75Ω load), Pr:0.70Vp-p(75Ω load)	
		Pb:0.70Vp-p(75Ω load)

Notes on Terminology

ANGLE	Recorded onto some DVD discs are scenes which have been simultaneously shot from a number of different angles (the same scene is shot from the front, from the left , from the right , etc.). With such discs, the Angle button can be used to change the angle of view for specific scenes.
CHAPTER NUMBER	These numbers are recorded on DVD discs. A Title is subdivided into many sections, each of which is numbered, and specific parts of the video can be searched quickly using these numbers.
DVD	A high-density optical disc on which high-quality pictures and sound have been recorded by means of digital signals. Incorporating a new video compression technology (MPEG-2) and high-density recording technology, a DVD disc comprises two 0.6 mm thick discs bonded together.
PCM	An acronym for Pulse Code Modulation - another name for digital audio.
PBC (PLAYBACK CONTROL)	This is recorded on a video CD (version 2.0). Selected scenes or information can be chosen from the menu displayed on the TV monitor.
REGION NUMBER	Both the DVD player and DVD discs are encoded with a region number. If the region number on the DVD disc does not correspond to the region number of the DVD player, the player cannot play the disc.
SUBTITLES	Translated appearing at the bottom of the screen. A DVD disc can contain up to 32 subtitle languages.
TITLE NUMBER	These numbers are recorded on DVD discs. When a disc contains two or more movies, these movies are numbered as Title 1, Title 2, etc.
TRACK NUMBER	These numbers are assigned to the tracks which are recorded on video and audio CDs. They enable specific tracks to be located quickly.
VIDEO CD	Contains recordings of pictures and sound whose quality is roughly comparable to that of video tape. This player also supports video CDs with playback control (version 2.0).
DIGITAL dts SURROUND	You can enjoy 5.1 (or 6) channels of high fidelity digital sound from various digital input sources such as DVD, CD etc. DTS provides a realistic, clear surround sound that has not previously been available from conventional surround sound.
DOLBY DIGITAL	5.1 (or 6) Channel Digital Surround sound reproduced from DVDs and LDs recorded as a digital signals (with DOLBY DIGITAL disc marking). With better sound quality, dynamic range, and directionality than traditional Dolby surround technology, you can enjoy dynamic, realistic sound.
DOLBY DIGITAL PRO LOGIC II	A 4 channel analog sound reproduced from a program source such as a videotape or LD with the DOLBY DIGITAL PRO LOGIC II mark. You can enjoy a more realistic, robust sound unavailable from regular stereo sources.

ELECTRONICS

Samsung Limited Warranty

Samsung Electronics Canada Inc. (SECA), warrants that this product is free from defective material and workmanship.

SECA further warrants that if this product fails to operate properly within the specified warranty period and the failure is due to improper workmanship or defective material SECA will repair or replace the product at its option.

All warranty repairs must be performed by a SECA authorized service centre. (The name and address of the location nearest you can be obtained by calling toll free **1-800-726-7864** or visiting our web site at **www.samsung.ca)**

Labour	Parts
one (1) year (carry-in)	**one (1) year**

On carry-in models, transportation to and from the service centre is the customer's responsibility.

The original dated sales receipt must be retained by the customer and is the only acceptable proof of purchase. It must be presented to the authorized service centre at the time service is requested.

Exclusions

This warranty does not cover damage due to accident, fire flood and/or other acts of God; misuse, incorrect line voltage, improper installation, improper or unauthorized repairs, commercial use, or damage that occurs in shipping. Exterior and interior finish, lamps and glass are not covered under this warranty. Customer adjustments which are explained in the instruction manual are not covered under the terms of this warranty.
This warranty will automatically be voided for any unit found with a missing or altered serial number. This warranty is valid only on products purchased and used in Canada.
